Remarks on the progress of Registration, ...	15

SUMMARY OF THE QUARTERLY REPORTS, 1872 :

First Quarter, ending March 31st, ...	17
Second Quarter, ending June 30th, ...	21
Third Quarter, ending September 30th, ...	24
Fourth Quarter, ending December 31st, ...	28

ABSTRACTS :—

Marriages registered in Ireland in each of the Divisions and Superintendent Registrars' Districts, also in each Province and County, in 1872, distinguishing Roman Catholic from Protestant Marriages, and giving the Total Number registered in each Quarter of the Year; the Conjugal Condition of Persons Married; the Number of Minors, and of those who signed the Registers by Marks, ...	34-43
Ages of 17,270 Persons married in 1872, distinguishing those of Bachelors, Spinsters, Widowers, and Widows, ...	44, 45
Marriages, Births, and Deaths registered in each of the Divisions and Superintendent Registrars' Districts, and in each Province and County in 1872; also Births and Deaths, and Excess of Births over Deaths in each of the Registrars' Districts of Ireland, distinguishing the Sexes and Illegitimate Births throughout, ...	46-70
Births registered in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties (distinguishing Males and Females) in each of the Four Quarters of 1872, ...	72-81

	Page
Deaths registered in each of the Four Quarters of 1872 (distinguishing Males and Females), in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,	82-91
Deaths of Males and Females at different Ages registered in 1872, in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties, ...	92-99
Causes of Death of Males and Females in Ireland, at different periods of life, in 1872, . . .	100-107
Supplementary Table of Causes of Death of Males and Females, at different periods of life, in 1872, ...	108-111
Causes of Death of Males and Females in Ireland, and in each of the Divisions, in 1872, . .	112-119
Deaths from several Zymotic and other Causes in 1872, in the Divisions and Superin- tendent Registrars' Districts, and in the Provinces and Counties, ...	120-123

APPENDIX.

Letter to the Registrar-General on the Causes of Death in Ireland in 1872, from WILLIAM M. BURKE, Esq., F.C.P.I., ...	127-130
Copy of Circular relating to Registration of Roman Catholic Marriages, ...	131

Index of Superintendent Registrars' Districts, and of Registrars' Districts, ...	132-138
Topographical Description of the Eight Registration Divisions of Ireland, ...	139
Estimated Population of Ireland from 1801 to 1872, ...	141

REPORT

TO

HIS GRACE, JAMES, DUKE OF ABERCORN, K.G., &c., &c., &c.,
Lord Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR GRACE,—

As directed by the provisions of the 26 Vic., cap. 11, sec. 49, the 26 & 27 Vic., cap. 90, sec. 16, and the 7 & 8 Vic., cap. 81, sec. 56, I have the honour to transmit to your Grace, in order that the same may be laid before Parliament, General Abstracts of the Births, Deaths, and Marriages registered in Ireland during the year 1872.

A General Abstract of the number of Births, Deaths, and Marriages, registered in the year 1872, was presented to Parliament in the Session of 1873. The Report now submitted contains detailed tables of the Ages and Condition of persons Married; of Births, distinguishing legitimate from illegitimate; and of Deaths, and their Causes.

The Acts for the Registration of Births and Deaths, and Roman Catholic Marriages, came into operation on the 1st of January, 1864, but that for the Registration of Protestant Marriages of all denominations has been in force since the 1st of April, 1845.

For the purposes of Registration, the country has been divided into 163 Superintendent Registrars' Districts—co-extensive with the Poor Law Unions—and into 792 Registrars' Districts, which, with a few exceptions, are of equal extent with the Dispensary Districts formed under the Medical Charities Act.

GENERAL SUMMARY.

The *estimated* population of Ireland in the middle of 1872 was 5,372,199; the persons whose marriages were registered during the year, amounted to 53,886, the number of marriages being 26,943; children born alive whose births were registered, amounted to 149,278; and the number of deaths registered was 97,294. The emigrants from Ireland during the year 1872 were 78,102. In the previous year—1871—there were *registered* 28,960 marriages, 151,355 births, and 88,348 deaths; the number of emigrants was 71,240.

MARRIAGES.

26,943 marriages were registered in Ireland during 1872, being in the proportion of 1 marriage to every 199 of the *estimated* population.

728 men and 3,653 women contracted marriage before they had

attained their twenty-first year. The proportion of males married under age was 2·70; of females, 13·56 per cent.

Of widowers, 3,132, and of widows, 1,602 were re-married; the proportion to the total marriages being 11·62 per cent. of widowers, and 5·95 per cent. of widows.

According to the provisions of the Registration Acts, every registry of a marriage is required to be signed by the parties married, two witnesses, and the officiating clergyman. A test of the elementary education of the persons contracting marriage is thus afforded by comparing the number who write their names in the registers, with the number who make a mark. Of 53,886 persons married in 1872, 20,599 (9,332 men and 11,267 women) signed the registers with marks; being in the proportion of 38·23 per cent.—34·64 per cent. of the males, and 41·82 per cent. of the females married.

In Ireland, the marriage register was signed by mark by both parties in 7,385, and by one or other of the persons married in 5,829 instances—thus in 13,214, or 49·0 per cent. of the total number of marriages registered, one or both of the persons married signed by mark.

The marriage registers contain a column in which the age of each of the parties married is inserted; but as the law only requires it to be stated whether the parties are “of full age” or “minors,” the precise age at marriage is not always entered in the registers. In 1872 the exact ages of both parties were given in 8,635 instances. Of these 7,752 were bachelors, and 8,173 spinsters; 883 were widowers, and 462 widows. The largest number of wives married between the ages of 21 and 30—the number being 5,172, or more than one-half of the whole number whose ages are recorded. The largest number of husbands—4,934—also married between 21 and 30 years of age.

238 bachelors were married to widows, both of whose ages at the time of marriage are recorded. 130 of these widows and 123 of the bachelors married between 25 and 35 years of age. 659 of the marriages in which the ages of both parties were recorded, were between widowers and spinsters, 391 of the former being between the ages of 30 and 45, and 451 of the latter between 21 and 35.

Of widowers and widows married, whose ages at the time of marriage are stated, there were 224 couples. Of these the largest number of widows were between 35 and 45, and of widowers between 45 and 55.

With respect to Roman Catholic Marriages, the 26 & 27 Vic., cap. 90, directs that parties about to contract marriage shall produce to the clergyman celebrating the marriage a certificate, to be procured from the Registrar, filled up as far as possible by that officer with the particulars necessary to be registered, which certificate the parties married, the witnesses, and the officiating clergyman are required to sign. When so filled up the certificate is to be returned within three days to the Registrar by the husband, under a penalty of ten pounds.

With a view to facilitate the registration of marriages under the Act referred to, and at the special request of several dignitaries of the Roman Catholic Church,—with the approval of the Law Officers of the Crown—(who at that time were the Right Hon. Thomas O’Hagan, M.P., and James A. Lawson, esq., Q.C.)—I instructed the District Registrars to furnish to each parish priest, who should apply for them, forms of certificate to be duly filled, signed, and forwarded to the Registrar on the

occasion of a marriage, thus saving the husband the inconvenience of procuring from the Registrar a form of certificate *previous* to his marriage, as required by the Statute.* I also furnished all the Roman Catholic clergy in Ireland with copies of the Act above referred to, in order that the requirements of the law might be known to them previous to the Act coming into operation.

The number of marriages registered in each of the nine years 1864–72; the proportion per cent. of persons married who wrote their names in the registers, of minors, of widowers, and of widows, are given in the following table, for the several registration divisions:—

TABLE I.—*The Number of Marriages in the Eight Divisions of Ireland during the years 1864–72, and proportion per cent. of Persons who signed their Names, of Persons not of Full Age, and of Re-marriages.*

Registration Divisions.		Number of Marriages.	Signed their Names in Writing.		Persons not of Full Age.		Re-marriages.				
			Of 100 Men Married.	Of 100 Women Married.	Of 100 Men Married.	Of 100 Women Married.	Widowers.	Widows.

		1872	4,097	64·9	57·1	1·88	14·91	10·96	7·05

The extent and position of each of these divisions are specified at p. 139.

Of the total number of marriages (26,943) registered in 1872, 18,932 were celebrated by Roman Catholic clergymen, and entered in the register books by the Registrars in accordance with the 26th and 27th Vic., cap. 90; and 8,011 marriages were of members of the various Protestant persuasions. Of the latter marriages 4,374 were in churches and chapels of the late Established Church, 2,773 in Presbyterian Meeting-houses, 291 in "Registered Buildings," 561 in the Registrars'

offices, 11 according to the usages of the Society of Friends, and 1 marriage was between members of the Jewish persuasion.

Of the entire number of marriages in 1872 there were contracted in the quarter ending the last day of March, 10,269; of June, 5,514; of September, 5,374; of December, 5,786.

The following table gives a statement showing in continuation of the return in my report for 1871, the number of marriages solemnized in Ireland under the Marriages Act of 1844, distinguishing the mode of celebration:—

TABLE II.—*The Number of Marriages registered under 7 & 8 Vic., c. 81, in each Year, from 1st April, 1845, to 31st December, 1872, and the Mode in which the Marriages were solemnized.*

Years ended 31st December	Marriages.													Total Marriages registered under 7 & 8 Vic., cap. 81.
	According to the Rites of the late Established Church.						Not according to the Rites of the late Established Church.							
	Special Licence.	Licence.	Banns.	Registrar's Certificate.	Not stated by which of the foregoing Forms.	Total.	In Registered Presby- terian Meeting-houses.	In Registered Buildings.	In the Registrars' Offices.	Society of Friends.	Jews.	Total.

There is not any return made to me of the places of worship belonging to Roman Catholics, in which marriages are celebrated; but under the provisions of the 7th & 8th Vic., cap. 81, I am enabled to state respecting

* The 7 & 8 Vic., c. 81, came into operation 1st April, 1845.

† The increase in the number of marriages by Special Licence and in those on Registrar's Certificate in 1871 is caused by the provisions of sections 36 and 38 of "The Matrimonial Causes and Marriage Law (Ireland) Amendment Act, 1870," and the decrease of Marriages on Registrar's Certificate, in 1872 by the operation of sections 25, 26, and 27 of 34 & 35 Vic., cap. 49.

other religious persuasions, that there were 1,502 Churches and Chapels of the late Established Church, 586 registered Presbyterian Meeting-houses, and 250 Registered Buildings belonging to various denominations, in which marriages might lawfully be solemnized, on the 31st December, 1872. During the year 1872 there was no change in the number of such places in the late Established Church; there was a decrease of 4 in the Presbyterian Church; and an increase of 14 in other religious communities. The "Registered Buildings" belong to the following denominations:

Denominations.	No. of Places of Worship.	Denominations.	No. of Places of Worship.
Wesleyan Methodists, ...	143	Covenanters, ...	1
Reformed Presbyterians, ...	35	Evangelical Union, ...	1
Independents, ...	20	United Original Seceders, ...	1

During the year 1872 there were issued by the Registrars, 630 Licences for Marriage in Registered Buildings and in the Registrars' offices.

The number of Marriage Licences issued by the licensing Ministers of the several Presbyterian bodies is given in the following summary:—

Presbytery or Synod.	Number of Licensing Ministers on 31st December, 1872.	Number of Registered Meeting-houses on 31st December, 1872.	Number of Licences issued.
1. General Assembly of the Presbyterian Church in Ireland, ...	124	547	2,661
2. Remonstrant Synod of Ulster, ...	8	21	61
3. Presbytery of Antrim, ...	4	9	36
4. United Presbytery or Synod of Munster, ...	4	4	2
5. Northern Presbytery of Antrim, ...	1	5	9
Total, ...	141	586	2,769

BIRTHS.

The births registered in Ireland during 1872, amounted to 149,278. Of these, 76,904 were males, and 72,374 females, being in the proportion of 106 boys to every 100 girls.

The rate per cent. of births to the *estimated* population was 2·78, or 1 in 36 of the population.

There were 3,731 illegitimate births, of which 1,923 were those of males, and 1,808 females; the proportion to the total number of births being 2·5 in every 100. The highest rates, 5·1 and 2·7, of illegitimate children in every 100 born, occurred in the North-Eastern and South-Eastern Divisions respectively.

The following table shows the proportion of legitimate and illegitimate births registered in each of the eight Divisions in 1868, 1869, 1870, 1871, and 1872.

TABLE IV.—*The Per-centage of Legitimate and Illegitimate Births registered in Ireland during the years 1868, 1869, 1870, 1871, and 1872, by Divisions.*

Divisions.	Proportion per cent. of Legitimate Births.					Proportion per cent. of Illegitimate Births.				
	1868.	1869.	1870.	1871.	1872.	1868.	1869.	1870.	1871.	1872.

Western, ...	98.7	98.7	99.0	99.0	99.2	1.3	1.3	1.0	1.0	0.8
South-Eastern, . .	95.9	96.7	96.8	96.7	97.3	4.1	3.3	3.2	3.3	2.7
South-Western, . .	97.9	98.3	98.3	98.4	98.6	2.1	1.7	1.7	1.6	1.4

41,221 births were registered during the quarter ended 31st March; 40,033 in that ended 30th June; 33,950 during that ended 30th September; and 34,074 in that ended 31st December.

DEATHS.

The deaths registered in 1872 amounted to 97,294—48,991 males, and 48,303 females—being in the proportion of 1.81 per cent. of the *estimated* population, or in the ratio of 1 *registered* death to every 55 persons.

The following table shows the per-centage of mortality at different ages:—

TABLE V.—*The Per-centage of the Total Deaths which occurred at each Age-period, according to the Registration of Deaths in Ireland, during the Years 1864–1872, by Sexes.*

Of the persons whose deaths were registered during the year 25·52 in every 100 were children under 5 years old—26·82 per cent. of the males and 24·19 per cent. of the females. 15·74 per cent. of the men, and 17·81 per cent. of the women, whose deaths were registered had passed their 75th year. 77 of the males and 100 of the females in every 10,000 were stated in the returns to have been over 95 years of age.

29,356 deaths were registered during the first quarter of the year; 25,938 during the second; 19,631 during the third; and 22,369 during the fourth quarter.

EMIGRATION.

According to the Returns obtained by the Royal Irish Constabulary and the Metropolitan Police, who acted as enumerators at the several seaports, the number of emigrants who left Ireland during the year 1872 amounted to 78,102; of these 46,212 were males and 31,890 females. Of the whole number, 18,291 were from Leinster; 15,308 from Munster; 34,732 from Ulster; and 9,660 from Connaught: 111 persons did not state the county or province to which they belonged.

Of the emigrants in 1872, 11·9 per cent. were under 15 years of age; 77·6 per cent. were 15 to 35 years old; and 10·5 per cent. were 35 and upwards.

METEOROLOGY.

The following is an abstract of the Meteorological Observations taken during the year 1872 at the Ordnance Survey Office,* Phoenix Park, Dublin, furnished by Lieutenant-Colonel Wilkinson, R.E., by direction of the Superintendent of the Ordnance Survey.

The barometer was highest during the year at 9.30 A.M. on 6th April, when it stood at 30·422 inches, wind S.E.; it was lowest on 17th January, at 9.30 P.M., wind S.S.W., when it registered 28·477 inches.

The highest temperature in the air was 81·4°, on 4th July, and the lowest was 23·0°, on 29th December.

Rain or snow fell on 253 days during the year. The total amount registered during this period was 35·809 inches. The greatest rain-fall in twenty-four hours was 1·540 inches, on 21st April, wind N.E.

The prevailing wind was the S.W., from which point it blew on 76 days; the wind blew from W. on 60 days; from S. on 56 days; from N.W. on 31 days; from S.E. on 28 days; from N. on 24 days; from E. on 11 days; from N.E. on 10 days; and the air was calm on 70 days, at 9.30 A.M. The average pressure of S.W. wind was 2·95 lbs. per square foot. The strongest wind was from S.S.W., on 6th January, when the pressure was 25 lbs. per square foot.

* Latitude 53° 21' 44·65", north; longitude 6° 21' 6·35", west. Height above the sea 158·8 feet. The barometrical readings have been corrected for altitude, and reduced to 32° Fahrenheit.

I beg here to repeat the observations made in my former Reports, with respect to the working of the Acts for the Registration of Births, Deaths, and Marriages in Ireland, as I regret to state that the numbers of these events registered in 1872 do not show much improvement compared with previous years:—

“In several instances prosecutions have been resorted to with some advantage; but notwithstanding the exertions made to induce a general compliance with the law throughout the country, numerous cases of neglect to register births and deaths have been reported to me by the District Registrars, but frequently at too late a period after their occurrence to allow of the parties being proceeded against at the Petty Sessions.

“I regret to add that the registration of marriages under the 26th & 27th Vic., cap. 90, is not at all satisfactory in some Districts, owing to the Clergy who have celebrated the marriages having declined to sign the necessary certificates.

"The marriages solemnized under the provisions of the 7th & 8th Vic., cap. 81, which came into operation in 1845, are, I believe, all registered.

"The following are the ratios of Births, Deaths, and Marriages to population in different countries compared with the ratio in Ireland in 1864 [and in 1865, 1866, 1867, 1868, 1869, 1870, 1871, and 1872] :—

COUNTRIES.	RATIO TO POPULATION.		
	Births.	Deaths.	Marriages.
IRELAND [in 1864], ...	1 in 42	1 in 61	1 in 207
IRELAND [in 1865], ...	1 " 39	1 " 61	1 " 183
IRELAND [in 1866], ...	1 " 38	1 " 60	1 " 185
IRELAND [in 1867], ...	1 " 38	1 " 59	1 " 187

Hanse Towns: Bremen, ...	1 " 28	1 " 37	1 " 105
Holland, ...	1 " 30	1 " 42	1 " 127
France, ...	1 " 38	1 " 44	1 " 127
Spain, ...	1 " 26	1 " 32	1 " 127
Austria (exclusive of Hungary), ...	1 " 25	1 " 31	1 " 121

"It will be seen from the foregoing figures, compiled from the Statistical Tables published by the Board of Trade, how incomplete was Registration in Ireland in 1864, and comparing the number of Births, Deaths, and Marriages recorded in that year with those since annually registered, I regret to state that there appears but little improvement in the subsequent years :—

	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.

Following this Report are summaries of the Quarterly Reports issued in 1872, and the Appendix contains a letter addressed to me by Dr. Burke, the Superintendent of Medical Statistics, respecting the causes of death—to which I beg to refer.

I have the honour to be

Your Grace's very faithful servant,

WILLIAM DONNELLY,
Registrar-General.

GENERAL REGISTER OFFICE,

CHARLEMONT HOUSE,

Dublin, 18th November, 1874.

SUMMARY OF THE QUARTERLY REPORTS, 1872.

*First Quarter—January, February, March.*Quarterly
Reports.First
Quarter.

Marriages.—There were 10,269 marriages registered in Ireland during the first quarter of 1872, a number affording an annual ratio of 1 in every 131, or .765 per cent. of the *estimated* population. The average number of marriages registered in the corresponding quarter of the years 1867–71 was 11,672.

Births.—The births registered during the first quarter of the year 1872 amounted to 41,221—21,161 boys and 20,060 girls—affording an annual ratio of 1 in every 32.6, or 3.07 per cent. of the *estimated* population. The average number of births registered during the corresponding quarter of the previous five years was 39,179.

Deaths.—There were 29,356 deaths—14,443 males, and 14,913 females—registered during the quarter, affording an annual ratio of 1 in 45.8, or 2.17 per cent. of the *estimated* population. The average number registered during the first quarter of the preceding five years was 27,275.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 31st March, 1872, amounted to 11,520—7,692 males and 3,828 females. The average number of emigrants during the corresponding quarter of the preceding five years was 12,261.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf, for the quarter ending 31st March, 1872, was 8*d.*, being $\frac{1}{2}$ *d.* dearer than it was during the corresponding period of 1871; and 2*d.* higher than in the first quarter of 1864.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 15*s.* per cwt.; during the first quarter of the preceding year it was 15*s.* 2*d.* In the corresponding period of 1864 it was only 11*s.*

At the Dublin Potato Market the average prices of potatoes during the quarter ranged from 3*s.* 5*d.* to 4*s.* 5*d.* per cwt., against 3*s.* 1*d.* to 5*s.* 6*d.* in the corresponding quarter of 1871; the average prices for the first quarter of 1864 were only 2*s.* 6*d.* to 3*s.* 3*d.*

The average prices of beef at the Dublin Cattle Market during the quarter were 59*s.* 0*d.* to 72*s.* 6*d.* per cwt., against 60*s.* 0*d.* to 73*s.* 6*d.* in the corresponding period of 1871; for the first quarter of 1864 the average prices were 51*s.* 6*d.* to 64*s.* 6*d.*

The following statement shows the average prices of the foregoing articles of food in Dublin during the first quarter of the years 1864–72:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4 lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.	
	<i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>
1864 (1st quarter),	6	11 0	2 6 to 3 3		51 6 to 64 6	
1865 " "	5½	11 9	3 1 to 3 7		54 6 to 68 0	
1866 " "	6½	14 10	2 6 to 3 6		50 6 to 63 6	
1867 " "	8	16 1	4 5 to 5 7		53 0 to 70 0	
1868 " "	9	16 10	4 6 to 5 2		49 6 to 63 6	
1869 " "	7	15 8	3 5 to 4 10		54 6 to 70 0	
1870 " "	6	14 3	3 9 to 4 8		54 6 to 66 6	
1871 " "	7½	15 2	3 1 to 5 6		60 0 to 73 6	
1872 " "	8	15 0	3 5 to 4 5		59 0 to 72 6	

The average number of persons in Ireland receiving in-door relief on Saturdays during the first quarter of the year 1872 was 50,700, against 52,096 for the corresponding period of 1871.

The average weekly number of persons receiving out-door relief during the quarter was 28,030, against 24,748 during the first quarter of 1871.

Quarterly
Reports.
First
Quarter.

Of the persons receiving in-door relief during the first quarter of 1872 an average number of 543 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1871 the average weekly number was 513.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, Dublin, during the first quarter of the year 1872 was 29·611 inches, against an average of 29·819 inches for the corresponding quarter of the previous five years; the highest reading (30·230) was on the 10th March, at 9.30 A.M., wind W.; and the lowest (28·477) on the 17th January, at 9.30 P.M., wind S.S.W.

The mean temperature of the air during the quarter was 43·9°, against an average of 42·0° for the corresponding period of the preceding five years. The maximum temperature was 60·2°, and the minimum 26·0°.

Rain or snow fell on 66 days during the quarter. The rain-fall measured 8·176 inches, being the greatest amount registered in the first quarter of the year since 1867, when it measured 8·188 in. The average amount for the first quarter of the five years 1867-71 was 6·771 inches. The greatest monthly rain-fall during the quarter was in March, when 3·374 inches were registered.

The wind blew on 24 days from S.W., on 21 days from S., on 14 days from S.E., on 10 days from W., on 6 days from N., on 4 days from E., on 3 days from N.W., on 1 day from N.E., and the air was calm on 8 days at 9.30 A.M.

HEALTH OF THE PEOPLE.

The number of deaths registered during the quarter ended March 31, exceeded by 2,081 the average for the corresponding period of the previous five years.

Of the zymotic diseases, that which prevailed to the greatest extent was small-pox.

In the Celbridge district, 36 deaths were registered, of these 7 resulted from small-pox. The Registrar of the district makes the following remarks:—"I fear that many more families would have to mourn the loss of relatives from that disease, had it not been (humanly speaking) for the thoughtfulness and good sense of the Catholic priests of the parish, who recommended their flock (should any of them be so unfortunate as to get it amongst them) at once to be advised by the dispensary physician, and have each case removed to the small-pox hospital, and I am happy to be able to say that they followed their advice, and the disease for the present has disappeared." In the Coolock and Drumcondra district, North Dublin Union, 7 of the 38 deaths registered were referred to small-pox.

In the Finglas and Glasnevin district, where the North Dublin Union small-pox hospital was situated, 102 deaths from small-pox were registered, of these 99 occurred in the hospital. The Registrar of the Swords district, Balrothery Union, in referring to the death of a carter, who died from a second attack of small-pox, made the following important observations:—"I have not a doubt but diseases such as small-pox, scarlatina, &c., are spread through the agricultural districts surrounding Dublin, by means of the manure (farm compost) brought from the lanes, &c., of Dublin into the country. A small quantity of carbolic acid sprinkled over each cart-load of manure might be attended with wholesome results."

The Droimore district of the Banbridge Union was visited by small-pox in the months of January and February; the Registrar in his report says—"At present, however, there is not a single case in the district. The people had the good sense to avail themselves largely of the benefits to be derived from vaccination and re-vaccination during the time the disease prevailed. I in my public capacity

vaccinated over 1,030 persons during the three months, which, together with the prompt removal to hospital of all suitable cases, had doubtless much to do with the cessation of the epidemic."

The Registrar of the Forkill district, Newry Union, stated that "a large number of persons (623) presented themselves for vaccination during the quarter, many of whom had never been vaccinated."

Several of the Registrars referred to the great number of persons who were vaccinated and re-vaccinated during the quarter.

Next to small-pox scarlet fever was the most prevalent of the zymotic diseases. Of the 45 deaths registered in the Roscrea district, No. 1, 16 were caused by this disease. In Glanbehy district, Cahersiveen Union, one-half of the deaths registered during the quarter resulted from scarlet fever. More than one-half of the deaths registered in the Castlegregory district, Dingle Union, were caused by scarlet fever.

Fever, whooping-cough, and measles were epidemic in many localities, especially in those where all sanitary precautions were neglected.

The inclemency of the season proved very fatal to early and to advanced life.

The mortality from chest affections was great. Influenza prevailed to a considerable extent; the Registrar of Ballymena states that—"Influenza, generally complicated with bronchitis, has been quite an epidemic, and most prevalent. I never remember so many cases in same time as last quarter; but, except of cases in very young children, not fatal."

Of the numerous old persons who died during the quarter, a large number were stated to have attained extraordinary longevity. Sixteen of the 34 deaths registered in Dirraw district, Ballymoney Union, were of persons between the ages of 70 and 92 years. At Newtownhamilton "Two centenarians died during the last quarter, and 16 of the deaths registered average 81 years." More than one-half of those who died in Cookstown during the quarter were over 60 years of age—12 were between 60 and 70, 12 between 70 and 80, 10 between 80 and 90, and 5 above 90—the extreme age was 97. A centenarian died in the Clonavaddy district, Dungannon Union. The Registrar of Meigh district, Newry Union, observes that "The deaths are above the average, owing to the severity of the weather; the mortality occurred among those of advanced life, whose ages varied from 103 to 60." Several of the persons who died were said to be aged over 100 years.

Some of the Registrars reported upon the deplorable sanitary condition of their districts. The Registrar of Stewartstown district, Cookstown Union, stated that "The sanitary arrangements of this town are badly attended to. It is a common occurrence to see two or three pigs in the houses of some families, in fact I have seen the kitchen of a house converted into a stable, and the horse standing in one corner and the family eating in another."

Many other instances of sanitary neglect might be cited.

NUMBER OF MARRIAGES, BIRTHS, AND DEATHS, REGISTERED IN EACH OF THE PROVINCES.

Marriages.—Grouping the Unions or Superintendent Registrars' Districts by Provinces, it will be seen from the following table that there were 3,699 marriages registered in the province of Munster during the first quarter of 1872, this number being equal to an annual ratio of 1 marriage in every 94 of the estimated population, and in Connaught 2,057 or 1 in 101; while in Ulster the ratio represented was only 1 in 172; and in Leinster, 1 in 177. This great difference between the marriage ratios in Munster and Connaught, and those in Ulster and Leinster, is owing to the fact that more than one-half of the annual number of Roman Catholic marriages in Munster and Connaught are celebrated in the first quarter of the year.

Quarterly Reports. The following Table shows, by PROVINCES, the number of Marriages registered during the FIRST quarter of the years 1870, 1871 and 1872, together with the annual ratio to the estimated Population.

Births.—Of the 41,221 births registered in Ireland during the first quarter of 1872, 8,835 occurred in Leinster, this number affording a ratio of only 1 in 37 of the estimated population. In Munster the number registered was 11,705; in Ulster, 13,767; and in Connaught, 6,914, affording respectively an annual ratio of 1 in 30, 33, and 30 of the estimated population.

The following Table shows, by PROVINCES, the number of Births and Deaths registered during the FIRST quarter of the years 1870, 1871 and 1872, together with the ratio to the estimated Population.

Deaths.—Whilst the births registered in the province of Leinster, during the quarter ending 31st March, 1872, afforded the lowest ratio, the deaths registered give the highest rate of mortality, the number being 8,148, equal to an annual ratio of 1 in 40. In Munster the number registered was 7,894, yielding a ratio of 1 in 44; in Ulster, 9,611, or 1 in 48; and in Connaught, 3,703, or 1 in 56 of the estimated population.

Second Quarter.—April, May, June.

Marriages.—The number of marriages registered in Ireland during the second quarter of 1872 amounted to 5,514, equal to an annual ratio of 1 in every 244, or 411 per cent. of the *estimated* population. The average number registered in the corresponding period of the preceding five years was 5,355.

Births.—The births registered during the second quarter of 1872 amounted to 40,033—20,713 boys and 19,320 girls—affording an annual ratio of 1 in every 33·5, or 2·98 per cent. of the *estimated* population. The average number of births registered during the corresponding quarter of the preceding five years was 40,338.

Deaths.—There were 25,938 deaths—13,043 males and 12,895 females—registered during the quarter, affording an annual ratio of 1 in 51·8, or 1·93 per cent. of the *estimated* population. The average number registered during the second quarter of the previous five years was 23,227.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th June, 1872, amounted to 38,062—21,885 males and 16,177 females. The average number of emigrants during the corresponding quarter of the preceding five years was 31,504.

Quarter
Reports.
—
Second
Quarter.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf, for the quarter ending 30th June, 1872, was 8½d., which was 1d. higher than the average price for the corresponding period of 1871.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 15s. 7d. per cwt.; during the second quarter of 1871 it was 15s.; in the corresponding period of 1864 it was only 10s. 6d.

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 4s. 11d. to 6s. 8d. per cwt., against 2s. 7d. to 5s. 2d. in the corresponding quarter of the preceding year; the average prices for the second quarter of 1864 were only 2s. 11d. to 3s. 8d.

The average prices of beef at the Dublin Cattle market during the quarter were 59s. 6d. to 76s. 6d. per cwt., against 60s. to 77s. 6d. in the corresponding period of 1871; for the second quarter of 1864 the average prices were 53s. to 65s. 6d.

The following statement shows the average prices of the foregoing articles of food, in Dublin, during the second quarter of the years 1864–72:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.	
	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.

1869 "	6½	15 6	3 0	to 4 11	56 6	to 74 0
1870 "	6½	15 2	3 10	to 5 1	54 6	to 68 6
1871 "	7½	15 0	2 7	to 5 2	60 0	to 77 6
1872 "	8½	15 7	4 11	to 6 8	59 6	to 76 6

The average number of persons in Ireland receiving in-door relief on Saturdays during the second quarter of the year 1872 was 46,338, against 45,991 for the corresponding period of 1871.

The average weekly number of persons receiving out-door relief during the quarter was 27,592, against 24,466 during the second quarter of 1871.

Of the persons receiving in-door relief during the second quarter of 1872 an average number of 551 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1871 the average weekly number was 524.

Quarterly
Reports.
—
Second
Quarter.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, during the second quarter of 1872 was 29·912 inches, against an average of 29·883 inches for the corresponding quarter of the preceding five years; the highest reading (30·422 in.) was on the 6th April, at 9.30 A.M., wind S.E.; and the lowest (29·127 in.) was on the 23rd April, at 3.30 P.M., wind N.N.E.

The mean temperature of the air during the quarter was 51·5°, against an average of 52·6° for the corresponding period of the preceding five years. The maximum temperature (77·4°) was on the 20th June, and the minimum (28·0°) on the 3rd April.

Rain fell on 58 days during the quarter. The rain-fall measured 7·703 inches, being the greatest amount registered in the second quarter of the year, since the year 1866, when it measured 7·796 inches. The average amount for the second quarter of the years 1867–71 was 4·918 inches. The greatest monthly rain-fall during the quarter was in June, when 3·097 inches were registered.

The wind blew on 23 days from W., on 17 days from S.W., on 12 days from N.W., on 9 days from N., on 7 days from S., on 6 days from N.E., on 5 days from S.E., on 1 day from E., and the air was calm on 11 days at 9.30 A.M.

HEALTH OF THE PEOPLE.

The deaths registered during the quarter ended June 30 show an increase of 2,711 as compared with the average of the corresponding quarter of the previous five years, and an increase of 3,678 on the second quarter of 1871.

The high mortality during the quarter may be referred to two causes—first, to the epidemic of small-pox; and secondly, to the inclemency of the season.

Of the first cause—small-pox: this disease prevailed in at least 120 of the Registrars' or dispensary districts—in some to an alarming extent; in others, where the patients were removed from their wretched habitations to hospital, the disease did not spread. In most of the districts there was abundant evidence to prove that the disease was imported. As to precautionary measures in reference to the transmission of infected persons, or the clothes of individuals who died in England or elsewhere of this disease, none were adopted.

The 26th section of the Sanitary Act of 1866 provides for the removal of persons sick of infectious disorders and without proper lodging, in any district, &c., to hospital. The Sanitary Act of 1866 might, if its provisions were carried out, have wrought much good; but as regards the section of the Act referred to, the law has been a dead letter.

In the Cork Registration District, small-pox committed fearful ravages; the annual death-rate, represented by the deaths from this plague *alone*, registered during the quarter, amounted to 23·2 per 1,000 of the population, whereas the death-rate in England from *all causes* during the same period only amounted to 21 per 1,000!

The 5 persons attacked with small-pox in the Dunboyne district of the Dunshaughlin Union, all died—4 at their homes, and the fifth in a Dublin hospital.

Scarlet fever and whooping-cough were, of the zymotic diseases, next to small-pox, the most fatal during the quarter. Fever and measles were less prevalent than usual.

As regards the weather as a cause of increased mortality amongst the young, and the aged and infirm: according to the meteorological returns, the mean temperature for the quarter was 51·5°, against an average of 52·6° for the second quarter of the preceding five years, and 52·5° in the corresponding quarter of 1871. The rain-fall amounted to 7·703 inches, against 4·918, the average amount for the second quarter of the previous five years.

The wet weather and the low temperature (on the 3rd of April the thermometer registered 28° of Fahrenheit) resulted in fatal affections of the pulmonary organs ; deaths from bronchitis, pneumonia, and phthisis were very numerous.

The number of aged persons who died during the quarter was very large. Some are stated to have attained extraordinary longevity. In the Forkill district, Newry Union, the Registrar records the death of "One man [who] had reached the age of 110 years." Of the 22 deaths registered at Belleek, Ballyshannon Union, "Nine of the deaths were those of old people ; one, a woman, a poor cottier, attained the extraordinary age of 108 years, another 90 years, one man at the age of 85, another man 80 years." In the Killorglin district, Killarney Union, there were 63 deaths registered ; of these the ages of 22 "ranged from 70 to 110 years." A woman died in the Drumahaire district, Manorhamilton Union, at the age of 103, and at Manorhamilton 1 person had reached the age of 100.

Reports as to the sanitary condition of certain localities are far from satisfactory. The Registrar of the Saintfield district, Lisburn Union, reported that the "Sanitary arrangements are very bad."

The Registrar of Lisburn remarks as follows:—"As regards the sanitary state of Lisburn, I have carefully inspected it, and am under the necessity of stating that it is really anything but creditable."

The Registrar of Mullingar observed that "There is great difficulty in getting anything done in the way of disinfecting houses, &c., as neither the Board of Guardians nor the Town Commissioners consider it to be their business, and some arrangement to effect this should certainly be made."

The Registrars of Moneymore (Magherafelt) and Crumlin (Antrim) referred to the benefits resulting from improved sanitary arrangements. The former reports that "The sanitary state of this district is very complete. The annual white-washing of the cottages, inside and outside, is nearly finished ; cesspools and manure heaps removed. Our relieving officer is active and watchful ; so we have had no epidemic this year." The latter (the Crumlin Registrar) demonstrates the pernicious effects of a bad water supply, and the remarkable improvement in the health of the district which followed the substitution of pure water. He states that "Typhus fever broke out in a cluster of labourers' houses in the district, and attacked 12 individuals in 4 different families. All the parties got their water from a pump into which the sewage and the filth from several of the houses were allowed to flow, till the water of the pump became discoloured, bad smelling, and offensive. The pump was thoroughly cleaned out, the sewage and filth were kept out of it, the water became good, and the fever immediately disappeared."

The foregoing is an admirable illustration of the effects of impure and pure water on the health of the people.

The provisions of the Compulsory Vaccination Act were energetically carried out in all districts. The Registrar of Newmarket district, Kanturk Union, says that "The spread of small-pox has been effectually checked by vaccination and re-vaccination. The people have been assured and are satisfied of its efficacy." The Registrar of Killarney No. 1 District re-vaccinated "nearly 300 persons" during the quarter.

**NUMBER OF MARRIAGES, BIRTHS, AND DEATHS REGISTERED IN
EACH OF THE PROVINCES.**

Marriages.—The number of marriages registered in the province of Leinster, during the quarter ended 30th June, 1872, affords an annual ratio of 1 in 181 ; in Ulster the ratio was 1 in 217 ; in Munster, 1 in 335 ; and in Connaught, 1 in 375.

Quarterly
Reports.
—
Second
Quarter.

The following Table shows, by PROVINCES, the number of Marriages registered during the SECOND quarter of the years 1870, 1871, and 1872, together with the annual ratio to the estimated Population :—

Deaths.—The number of deaths registered in the province of Leinster during the second quarter of 1872 afforded an annual ratio of 1 in 46; in Munster the ratio was 1 in 48; in Ulster, 1 in 55; and in Connaught, 1 in 65 of the estimated population.

Third
Quarter.

Third Quarter.—July, August, September.

Marriages.—The number of marriages registered in Ireland during the third quarter of 1872 amounted to 5,374, equal to an annual ratio of 1 in every 250, or 400 per cent. of the estimated population. The average number registered in the corresponding period of the preceding five years was 5,323.

Births.—There were 33,950 births registered in Ireland during the quarter ended 30th September, 1872—17,546 boys and 16,404 girls—representing an annual ratio of 1 in every 39·6, or 2·53 per cent. of the *estimated* population; the average number of births registered during the corresponding quarter of the preceding five years was 34,230.

Quarterly Reports.

Third Quarter.

Deaths.—The deaths registered in Ireland during the third quarter of the year 1872 amounted to 19,631—10,245 males and 9,386 females—affording an annual ratio of 1 in every 68·4, or 1·46 per cent. of the *estimated* population. The average number registered during the corresponding quarter of the previous five years was 18,216.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th September, 1872, amounted to 16,739—9,628 males and 7,111 females—the average number who emigrated during the corresponding quarter of the previous five years was 16,597.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders & Co.'s 4-lb. loaf, for the quarter ending 30th September 1872, was 8*d.*, being 1*d.* dearer than it was during the corresponding period of 1871, and 2*d.* dearer than in the third quarter of 1864.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 16*s.* 3*d.* per cwt.; in the third quarter of 1871 it was 15*s.* 1*d.*; while in the corresponding quarter of 1864 it was only 10*s.* 8*d.*

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 5*s.* 1*d.* to 7*s.* 6*d.* per cwt., against 2*s.* 10*d.* to 4*s.* 8*d.* in the corresponding period of 1871; the average prices for the third quarter of 1864 were only 2*s.* 7*d.* to 3*s.* 10*d.*

The average prices of beef at the Dublin Cattle market during the quarter were 58*s.* 6*d.* to 77*s.* 6*d.* per cwt., against 59*s.* to 74*s.* in the corresponding period of the preceding year; for the third quarter of 1864 the prices were 51*s.* to 62*s.* 6*d.*

The following statement shows the average prices of the foregoing articles of food in Dublin, during the third quarter of the years 1864–72:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.

1871 " "	7	15 1	2 10	to 4 8	59 0	to 74 0
1872 " "	8	16 3	5 1	to 7 6	58 6	to 77 6

The average number of persons in Ireland receiving in-door relief on Saturdays during the third quarter of the year 1872 was 41,420, against 41,332 for the corresponding period of 1871.

The average weekly number of persons receiving out-door relief during the quarter was 26,079, against 23,744 for the third quarter of 1871.

Of the persons receiving in-door relief during the third quarter of the year 1872 an average number of 566 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1871 the average weekly number was 531.

THE WEATHER.*Quarterly Reports.**Third Quarter.*

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, during the third quarter of the year 1872, was 29·904 inches, against an average of 29·959 inches for the corresponding quarter of the preceding five years; the highest reading (30·385 inches) was on the 27th August, at 9.30 p.m., the air being calm; and the lowest (29·372 inches) on the 10th August, at 9.30 a.m., air calm.

The mean temperature of the air during the quarter was 58·6°, against an average of 58·9° for the corresponding period of the preceding five years; the maximum temperature was 81·4° and the minimum 32·2°.

Rain fell on 55 days during the quarter. The rain-fall measured 7·486 inches; the average amount for the third quarter of the previous five years was 7·075 inches. The greatest monthly rain-fall during the quarter was in August, when 3·321 inches were registered.

The wind blew on 18 days from S.W., on 15 from S., on 14 from W., on 10 from N.W., on 5 days each from E., and S.E., on 2 from N., on 1 from N.E., and the air was calm on 22 days, at 9.30 a.m.

HEALTH OF THE PEOPLE.

The number of deaths registered during the third quarter exceeded by 2,180 the number registered in the corresponding quarter of 1871, and by 1,415 the average number registered in the third quarter of the years 1867-71.

The weather during the quarter was wet and stormy; rain fell on 55 days. At the Ordnance Survey Office, Phoenix Park, the rain-fall measured 7·486 inches; but in other parts of Ireland the amount of rain was much greater—*e.g.*, at Gweedore, in the county of Donegal, as much as 15·63 inches of rain fell during the quarter.

The mean temperature of the air was but 0·3° Fahrenheit lower than the average of the third quarter of the preceding five years.

Of zymotic diseases small-pox and scarlet fever were the most prevalent.

There was a marked subsidence of small-pox during the quarter. In the preceding quarter small-pox prevailed to a greater or less extent, in at least 120 of the registration districts; whereas in the quarter ended September 30 only 60 of the Registrars reported the presence of that disease in their several districts.

Small-pox was prevalent in the Tipperary district, chiefly in the town. The Registrar observes that "The cases vaccinated, even in early life—such as from twelve to eighteen years ago—assumed, in general, the mild or discrete form; whereas the deaths recorded occurred in the unvaccinated, and were of the confluent, and in many the purpuric description. Nine deaths are recorded therefrom. It was conveyed to this town by a strolling vagrant."

Of the 18 deaths registered in the Carrignavar No. 1 district, Cork Union, 4 resulted from small-pox.

In the Carrigaline district of the Kinsale Union the Registrar states that "Small-pox is still in the district; 3 deaths (of the 16) registered were caused by it."

Twenty-nine Registrars reported the presence of scarlet fever in their several districts. In some localities the disease assumed the most malignant form.

In the Kilnaleck district, Cavan Union, 6 of the 21 deaths registered were caused by scarlet fever.

In St. Mary's, Clonmel, scarlet fever was very prevalent. Of the 13 deaths registered 5 were ascribed to this disease.

The Registrar of the Ringville district, Dungarvan Union, makes the following report:—"The death-rate for this quarter is above the average. Scarlatina, of which there were some cases last quarter, became epidemical, and assumed a very

malignant type. The patients were attended at their own homes, as they in every instance refused removal to hospital. There were 16 deaths (total registered, 33,) from this disease and its sequelæ. In young infants it was almost invariably fatal whenever the throat became affected, as œdema of the glottis supervened, and the inflammation extended to the air passages."

In the Ballyduff district, Listowel Union, 6 of the 26 deaths registered were caused by scarlet fever; and of the 28 deaths registered in the Brosna district, Tralee, 6 were referred to the same disease.

Three deaths from scarlet fever occurred in one family in Shanagolden district, Glin Union.

Several deaths that occurred during the quarter resulted from whooping-cough, measles, fever, and diphtheria.

Many of those whose deaths were registered during the quarter are stated to have attained extraordinary longevity. In the Dervock district, Ballymoney Union, 1 person was stated to have been aged 106 years. Of the 18 persons whose deaths were registered in the Castlederg district, 12 were over 70 years, 1 was 90, and 5 were 80 years and upwards. Of the 21 deaths registered at Fintona, 9 were of persons over 70, 1 was 102, and another 96 years of age. At Brookeborough, Lisnaskea, the death of a person aged 105 years was registered; a death at Nenagh, 100 years; Carrigaholt, Kilrush, 103 years; Aclare, Toberecurry, 102 years; and at Kilmoganny, Callan, 1 at 100 years.

The Registrars of the following districts reported upon their improved sanitary condition, viz.:—Enniskillen, Arklow, Rathdowney (Donaghmore Union), Newmarket (Ennis Union), and Kilmakevoe (Waterford Union).

The Registrar of Castlereagh No. 1 district, Belfast, reported that "Some of the streets are in a filthy state. They are not passable for vehicles, hard material never having been laid on the roads; and in many places night soil and slops are thrown out before the doors."

The Registrar of Swords, Balrothery Union, drew special attention to the wretched sanitary condition of that district.

The Ringville district, Dungarvan Union, where malignant scarlet fever proved so fatal, appears to have been in a sad condition. The Registrar states that "The sanitary arrangements of the district have been always very defective—cesspools and dung heaps at the doors of the houses. No legislative enactment is more necessary than the providing of comfortable dwellings for the poor labouring population. In the thickly inhabited villages by the sea-side in this district the houses are unfit for human beings to reside in."

The Registrar of Clonroche, Enniscorthy Union, stated that his district was in a very bad condition as regards sanitary arrangements.

The Registrar of Cork No. 2 (North) reported as follows:—"Sanitary condition of my district indifferent—overcrowding, filth, and defective sewerage the rule." The following statement, which he adds, demonstrates the benefits resulting from good sanitary arrangements:—"During the late epidemic *there was a very marked immunity from small-pox* in a number of cottages built by the monks of North Monastery, owing, no doubt, to the fact that these cottages are well ventilated; and have yards, privies, and proper sewers."

Deaths.—The deaths registered in the Province of Leinster during the quarter ended the 30th September, 1872, represent an annual ratio of 1 in 59 ; in Munster the ratio was 1 in 63 ; in Ulster, 1 in 74 ; and in Connaught, 1 in 88.

Fourth Quarter.—October, November, December.

Fourth
Quarter.

Marriages.—There were 5,786 marriages registered in Ireland during the fourth quarter of 1872, a number affording an annual ratio of 1 in every 232, or .431 per cent. of the estimated population. The average number of marriages registered in the corresponding quarter of the previous five years was 6,119.

Births.—There were 34,074 births registered in Ireland during the quarter ended 31st December, 1872—17,484 boys and 16,590 girls—representing an annual ratio of 1 in every 39·4, or 2·54 per cent. of the *estimated* population; the average number of births registered during the corresponding quarter of the preceding five years was 33,713.

Quarterly
Reports.
Fourth
Quarter.

Deaths.—The deaths registered in Ireland during the fourth quarter of the year 1872 amounted to 22,369—11,260 males and 11,109 females—a number affording an annual ratio of 1 in every 60·0, or 1·67 per cent. of the *estimated* population. The average number registered during the corresponding quarter of the previous five years was 20,900.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 31st December, 1872, amounted to 11,781—7,007 males and 4,774 females. The average number of emigrants during the fourth quarter of the preceding five years was 10,499.

PRICES OF PROVISIONS, AND PAUPERISM.

During the whole of the fourth quarter of 1872 the price of Messrs. Manders and Co.'s 4-lb. loaf was 8*d.*, which was also the price in the corresponding quarter of 1871. In the fourth quarter of 1864, the price was only 5½*d.*

The average price of oatmeal in Dublin for the quarter was 16*s.* 7*d.* per cwt.; being 1*s.* 7*d.* over the average for the corresponding quarter of 1871. In the fourth quarter of 1864 the average price was 10*s.* 10*d.* per cwt.

The average prices per cwt. of potatoes at the Dublin Potato market for the fourth quarter of 1872 were 5*s.* 4*d.* to 7*s.* 8*d.* In the fourth quarter of 1871 the average prices were 2*s.* 6*d.* to 4*s.* 4*d.*, and in the corresponding quarter of 1864 they were 2*s.* 2*d.* to 3*s.* 4*d.*

The average prices of beef at the Dublin Cattle Market during the quarter were from 58*s.* to 73*s.* per cwt., against 58*s.* to 70*s.* 6*d.* in the corresponding quarter of 1871, and 49*s.* 6*d.* to 65*s.* 6*d.* in the fourth quarter of 1864.

The following statement shows the average prices of the above-mentioned articles of food in Dublin during the fourth quarter of the years 1864–72:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.

1872 "	8	16 7	5 4 to 7 8		58 0 to 73 0	

The average number of persons in Ireland receiving in-door relief on Saturdays during the fourth quarter of 1872 was 45,756, against 44,957 for the corresponding period of 1871.

The average weekly number of persons receiving out-door relief during the quarter was 26,516, against 23,878 for the fourth quarter of 1871.

Of the persons receiving in-door relief during the fourth quarter of 1872 an average number of 564 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1871 the average weekly number was 534.

Quarterly
Reports.

Fourth
Quarter.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, during the fourth quarter of the year 1872 was 29.594 inches, against an average of 29.893 inches for the corresponding quarter of the preceding five years; the highest reading (30.352 inches) was on the 13th November, at 9.30 A.M., air calm; and the lowest (28.559 inches) was on the 30th of the same month, at 9.30 P.M., wind S.S.E.

The mean temperature of the air during the quarter was 44.0°. The maximum temperature (69.5°) was on the 27th October, and the minimum (23.0°) on the 29th December.

Rain or snow fell on 74 days during the quarter. The rain-fall measured 12.444 inches, being about double the average for some years previous.

The wind blew on 17 days from S.W., on 13 days each from S., and W., on 7 days from N., on 6 days from N.W., on 4 days from S.E., on 2 days from N.E., on 1 day from E., and the air was calm on 29 days during the quarter at 9.30 A.M.

HEALTH OF THE PEOPLE.

To the extreme wetness of the weather during the fourth quarter, many of the Registrars attributed the comparative healthfulness of the season.

The mortality was chiefly among the aged, the infirm, and those of tender years.

As may be supposed the partial failure of the potato crop, coupled with the scarcity of fuel, caused much distress.

It appears in the meteorological report that the rain-fall at the Ordnance Survey Office, Phoenix Park, measured 12.444 inches, against 5.257 inches in the corresponding period of 1871. At Ballyare, Rathmelton, county of Donegal, the quantity of rain which fell during the quarter was still greater, and amounted to 15.6 inches, according to observations made and kindly furnished by George M. W. Hill, esq.

The Registrar of Portadown district, Lurgan Union, made the following report:—“One case of small-pox was imported from Scotland to this town, with the disease fully developed. The patient, a young man, aged about twenty years, was immediately removed to the workhouse hospital, and made a good recovery; so far I am happy to say no other person has taken the disease in this neighbourhood. I think it is too bad that a steamboat company or railway company would allow a small-pox patient with the disease fully developed to travel with other passengers, and thereby endanger the lives of the public.”

Another case of small-pox was imported into Magherafelt from Liverpool. Four deaths from small-pox occurred in Lisburn during the quarter.

The Registrar of Ballincollig (a military station), referring to the fact of small-pox still lingering in certain crowded localities of his district, observed:—“As may be imagined it would be impossible to carry out any satisfactory sanitary arrangements for the prevention of epidemic diseases, owing to the wretched condition of the habitations of the poorer classes,” &c.

In Dunmanway 14 deaths from small-pox were registered, and in Mullingar 6.

The Registrar of Dromdaleague, Skibbereen Union, reported as follows:—“One case of small-pox occurred during the quarter; the patient recovered. This was a peculiar case, the patient had been revaccinated, and contracted the small-pox whilst the vaccine vesicle was going through its stages of development, so that the two diseases ran their course together through the system.”

One death from small-pox occurred in Tipperary. The hygienic condition of this town was thus described by the Registrar:—“I regret to state that notwithstanding the supervision of the Town Commissioners the sanitary condition of the

suburbs is in a most neglected state, the residences of the labouring poor are most uncomfortable and unhealthy ; dungheaps, cesspools, and piggeries are in immediate vicinity to the entrance of their dwellings. In very many cases pigs occupy the same apartment with the family. No doubt such neglect must be productive of all forms of zymotic disease of the worst description." Small-pox broke out in the Tralee Union, and in Tralee district, No. 1, there resulted 5 deaths.

Quarterly Reports.

Fourth Quarter.

The total number of deaths registered from small-pox during the months of October, November, and December, amounted to 135, against 441 in the corresponding period of the year 1871 ; 3,248 persons fell victims to small-pox during the year 1872 ; during the first quarter of the year this disease killed 1,194 persons ; in the second quarter, 1,444 ; in the third quarter, 475, and as before stated, in the last quarter, 135.

The deaths registered from small-pox during the year were distributed among the four provinces in the following order :—Leinster, 1,771 ; Munster, 1,131 ; Ulster, 324 ; and Connaught, 22.

Measles was very prevalent and fatal, especially in the south-western and south-eastern divisions. In the Bandon district, Bandon Union, 13 of the 58 deaths registered resulted from measles. The Registrar of the Portlaw district, Carrick-on-Suir Union, attributed the large mortality to an outbreak of measles imported from the county of Clare ; he states that "it spread with great rapidity in this densely populated town, where at work and in school the children are thrown much together, and before the end of November we had over 450 cases, mostly of a severe type. The weather being raw and cold, the epidemic proved very fatal to infants, 34 deaths of the total number having been caused by measles, in cases under five years of age." In several districts scarlet fever was epidemic, chiefly in the south-western division. Some few deaths from diphtheria were reported.

Whooping-cough was very general, and in some districts very fatal. Seven of the 20 deaths registered in the Boherboy district, Kanturk Union, were caused by this disease. In the Inchigeelagh district, Macroom Union, whooping-cough caused 8 of the 20 deaths registered, and in the Slieverueagh district of the same Union, 4 of the 19 deaths registered during the quarter were ascribed to whooping-cough. There was a remarkable freedom from fever, this disease appeared in very few districts. The Registrar of Goleen district, Skull Union, reported that "there are 9 deaths (total registered, 31,) from croup, an unprecedented number."

The deaths of many persons were referred to old age ; of these 11 are stated to have exceeded the century, and 4 to have attained that advanced age. The Registrar of Bantry stated :—"Amongst the deaths from old age, is that of a man aged 106. He always stated that he was thirty years of age at the time the French fleet entered Bantry Bay. He preserved his intellect to the last, and was only confined to bed for about ten days previous to his death, from a slight rheumatic pain in his knee." Of the 20 persons whose deaths were registered in the Roosky district, Strokestown Union, 8 are stated to have attained the following ages, viz. :—1, 85 ; 3, 70 ; 2, 74 ; 1, 86 ; and 1, 100 years. The ages of 15 of the 24 persons who died in the Newtownhamilton district, Castleblayney Union, averaged 82·5 years. "One old woman braved 105 winters." In the Meigh district, Newry Union, "the death of a female aged 115 years was registered. She is reported to have enjoyed good health during the whole term, and to have been in the harvest field a short time previous to her death."

Seven Registrars reported the sanitary condition of their districts as wretched, one as somewhat improved, and five as good. Amongst the latter the Registrars of Holmpatrick district (Balrothery Union), and Enniskillen, testify to the benefits resulting from an improved water supply. The Registrar of Enniskillen in his report for the September quarter, 1867, stated that "the sanitary arrangements in the town are very bad." In his report for the fourth quarter of 1872 he observes : "Since we have got a pipe water supply, I am of opinion that there is a great diminution of disease, the sewers being flushed twice every week."

The provisions of the Compulsory Vaccination Act were zealously carried out.

Quarterly
Reports.**NUMBER OF MARRIAGES, BIRTHS, AND DEATHS REGISTERED IN EACH OF THE PROVINCES.**Fourth
Quarter.

Marriages.—The number of marriages registered in the Province of Leinster during the fourth quarter of 1872 amounted to 1,867, a number representing an annual ratio of 1 in every 175 of the estimated population; in Ulster the number was 2,448, or 1 in 187; in Munster 996, or 1 in 351; and in Connaught 475, or only 1 in 439.

The following Table shows, by PROVINCES, the number of Marriages registered during the FOURTH quarter of the years 1870, 1871, and 1872, together with the annual ratio to the estimated Population represented by the number of Marriages registered:—

NOTE.—The Registrars' Districts are sub-divisions of the Unions or Superintendent Registrars' Districts, and are identical with the Dispensary Districts of the same names, except in a few instances.

The letter W denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

Wherever the minus sign (—) is prefixed to the numbers given in the column headed "Excess of Births over Deaths," it denotes that the births in the Registrar's District, instead of exceeding the deaths, were, in fact, less than the deaths, to the extent stated.

* Doocharry District was formed on the 11th November, 1872, by the severance of Electoral Divisions from Dungloe and Glenties Districts, and, at the same time, the Electoral Division of Largymore was transferred from Carrick to Killybegs District. The numbers given above for Carrick, Dungloe and Glenties, include the Births and Deaths registered up to that date in each of those districts as previously constituted.

IRELAND.—SUPPLEMENTARY TABLE of the

[In the foregoing Tables all the Diseases, either having a distinct character, or fatal to any considerable number of persons, are classified under 116 heads; some of which, however, include groups of very distinct diseases,—such as are fatal to only a *few persons*, or *diseases* which are often confounded with other diseases. The rule has been to refer the distinct diseases to heads under which the cases were so numerous that the additional numbers would not interfere with the calculated proportions. Where it is desired, partial correction,

[continued at page 110.]

CAUSES of DEATH at different Periods of Life, in the Year 1872.

however, can now be made by means of the following Supplementary Tables, containing many of the deaths from distinct diseases, such as mumps, epistaxis, dry gangrene, polypus, rickets, bronchocele, &c., &c., and deaths from other forms of disease, such as softening of the brain (necrencephalus), which are returned in many cases under other heads, as paralysis, &c.

These Tables are an extension of the Tables of Causes of Death in Ireland, pp. 100-107.]

* The Registration Counties consist of groups of Superintendent Registrars' Districts or Poor Law Unions. Whenever a District or Union extends into more than one County, it is assigned wholly to that County in which the greater portion of the population is located; hence all the Registration Counties differ more or less from the Counties Proper.

LETTER to the REGISTRAR-GENERAL on the CAUSES of DEATH in IRELAND,
from WILLIAM M. BURKE, ESQ., F.C.P.I.

YEAR 1872.

SIR,

I beg to submit for your consideration some remarks in reference to the causes of the deaths which were *registered* during the year 1872

As it is not easy in all cases to determine the exact cause of death, the returns furnished by the 792 Registrars must be more or less imperfect.

Again, the causes of death in many instances must always remain unknown, inasmuch as a great number die in Ireland unattended by a medical man.

The form of the medical certificate, to which I on former occasions referred, and to which the members of the medical profession so strongly object, has materially affected the value of the returns.

I may here state that there is a marked improvement in the working of the Registration Act, and that the particulars in the returns furnished are more precisely and clearly set forth than heretofore.

There were *registered* in Ireland during the year 1872, 97,294 deaths, against 88,348 in the year preceding, showing an increase of 8,946, attributable in great part to an epidemic of small-pox.

I. ZYMOTIC DISEASES.

Zymotic diseases proved fatal in 17,823 instances—9,086 males and 8,737 females,—thus contributing 1 death in every 5.5 of all the deaths registered, and killing 33 in every 10,000 of the population. In the year 1871 the deaths from zymotic diseases numbered 13,936, or 3,887 less than in the year under consideration.

Small-pox, which became epidemic in the year 1871 and then caused 665 deaths, was very fatal during the year 1872—no less than 3,248 deaths (1,808 males and 1,440 females), or 1 in every 30 of the total deaths registered having resulted from this pestilence. Of those who died from small-pox, 821 (414 males and 407 females) were under 5 years of age, and as many as 556 (348 males and 208 females) were aged from 25 to 35 years.

The three divisions of the country chiefly affected by the epidemic were the North-Eastern, in which 309 of the deaths occurred; the Eastern, which contributed 1,714; and the South-Western, in which the disease proved fatal in 1,071 instances. There were only 19 deaths from this cause in the Western division and but 9 in the North-Western.

The zymotic death-rate in Dublin, during the prevalence of small-pox, contrasts unfavourably with that of London, as in the former it was 8.4 per 1,000 of the population, and 7.0 in the latter.

To fever, 3,220 deaths—1,684 males and 1,536 females—were ascribed, equal to 6 in 10,000 of the population. The deaths from fever were classed as follows—702 from typhus, 1,001 from typhoid or enteric, and 1,517 from simple continued fever.

The deaths from scarlet fever amounted to 2,459—1,235 males and 1,224 females—being equal to 4·6 in every 10,000 living. 781 of these deaths occurred in the South-Western division.

Measles, which only caused 547 deaths in 1871, killed no less than 1,380 persons—677 males and 703 females—during the year 1872. Like scarlet fever this disease proved most fatal in the South-Western division.

Whooping-cough also shows an increased fatality as compared with the year 1871, the deaths registered in 1872 having amounted to 1,926—882 males and 1,044 females—against 1,388 in 1871. The North-Eastern and the South-Western divisions contributed the largest number of deaths from this disease.

Of the total deaths (1,926) from whooping-cough, only 145 were of persons over 5 years of age.

1,283 deaths resulted from croup—699 males and 584 females. 1,099 of those who died from croup were under 5 years of age.

Quinsy caused 246 deaths, and diphtheria 257.

Diarrhoea proved fatal in 1,625 instances, and dysentery in 325.

Metria or child-bed fever was the cause of 307 deaths.

241 deaths were attributed to erysipelas, against 319 in the preceding year.

Influenza caused 132 deaths.

3 males were killed by glanders.

II. CONSTITUTIONAL DISEASES.

17,066 deaths were referred to constitutional diseases; of these 8,290 were males and 8,776 females, the total being equal to 1 in every 5·7 of the deaths registered, and 31·8 in every 10,000 of the population.

10,430 persons fell victims to phthisis or pulmonary consumption. Of these 5,026 were males and 5,404 females. This disease proved most fatal in the North-Eastern and Eastern divisions.

Mesenteric disease caused 1,419 deaths—707 males and 712 females; hydrocephalus or water on the brain, 1,073—607 males and 466 females; and scrofula, 984—539 males and 445 females.

Cancer killed 1,750 persons—767 males and 983 females. Only 19 deaths were referred to gout—18 males and 1 female.

1,206 deaths were returned under the head of dropsy, the primary cause not having been stated.

III. LOCAL DISEASES.

To local diseases 31,160 deaths—17,114 males and 14,046 females—were ascribed, being equal to 1 in every 3·1 of the total deaths registered, or 58 in 10,000 of the population.

The deaths from diseases of the nervous system numbered 8,620, of which 4,202 were attributed to convulsions (nearly all children, and the majority of the male

sex); apoplexy was the cause of 968 deaths—584 males and 384 females; 1,437 deaths were referred to paralysis—of these 772 were males and 665 females; cephalitis or inflammation of the brain and its membranes caused 612 deaths; epilepsy, 370—223 males and 147 females; insanity, 236; chorea, 7; and the remaining 788 deaths were returned as from “brain disease.”

3,938 deaths were attributed to diseases of the circulatory organs; of these 2,115 were males and 1,823 females. Seventy-three of the foregoing were ascribed to pericarditis or inflammation of the heart's covering; 91 to aneurism, and the remaining 3,774 to “heart disease.”

The deaths resulting from diseases of the respiratory organs, exclusive of phthisis or pulmonary consumption, amounted to 12,328—6,501 males and 5,827 females. Of this number as many as 9,193 were caused by bronchitis; 1,614 by pneumonia or inflammation of the lungs; 546 by asthma; 213 by pleurisy; 111 by laryngitis; and the remaining 651 were returned as by “lung disease.”

Diseases of the digestive organs contributed 4,413 deaths—2,436 males and 1,977 females. Of these enteritis, or inflammation of the bowels, caused 502 deaths; gastritis or inflammation of the stomach, 301; peritonitis, 302; ileus or obstruction of the bowels, 352; and the remainder were referred to “stomach disease,” &c.

To the various affections of the urinary organs 1,339 deaths were attributed—1,001 males and 338 females. Of these 286 were referred to nephria or Bright's disease; 123 to diabetes; 101 to cystitis or inflammation of the bladder; 19 to stone; and the remainder to “kidney disease,” &c.

From diseases of the organs of generation 149 deaths resulted, of which ovarian dropsy caused 65; diseases of the womb, 81; and of the remaining 3 (males) 2 were caused by orchitis, and 1 by hydrocele.

160 deaths were referred to affections of the organs of locomotion.

Diseases of the integumentary system caused 213 deaths—129 males and 84 females,—of which 5 were caused by phlegmon; 92 by ulcer; and the remainder by “skin disease,” &c.

IV. DEVELOPMENTAL DISEASES.

Such diseases as are the result of the growth and decay of the human frame caused 26,526 deaths—11,783 males and 14,743 females.

Of the foregoing, 20,437—9,036 males and 11,401 females—were ascribed to old age, of which number 303 were persons stated to have reached the advanced age of 100 years and upwards—135 males and 168 females.

The number of children prematurely born was 241—125 males and 116 females.

268 deaths were ascribed to teething—135 males and 133 females. 108 of these deaths occurred in the North-Eastern division.

Three deaths were caused by cyanosis; 14 by spina bifida; and 15 by other malformations.

4,896 deaths were referred to debility, of which number 4,053 were those of children under 5 years of age.

The number of women who perished from and in consequence of childbirth was 944—that is, 1 death of the mother occurred for every 158 children born; 14

of the mothers who died were under 20 years of age, 9 of whom died from metria and 5 from the accidents of childbirth. One mother was stated to have been 55 years of age.

V. VIOLENT DEATHS.

1,998 deaths were caused by violence—1,368 males and 630 females. Of these deaths, 1,792—1,225 males and 567 females—were accidental; 92—61 males and 31 females—were returned as homicidal; and 102—73 males and 29 females—were suicidal.

336 sudden deaths, cause unascertained, were reported; of these 204 were males and 132 females.

The cases in which the cause of death was unspecified numbered 2,385, or 1 in every 40·8 of the total, showing an improvement as regards the specification of the cause of death as compared with the previous year, in which those cases equalled 1 in every 37 of the total deaths registered.

I am,
Sir,
Your obedient servant,
W. M. BURKE.

To
The Registrar-General.

COPY of CIRCULAR relating to REGISTRATION of MARRIAGES celebrated by
the ROMAN CATHOLIC CLERGY, 26 and 27 Vic., cap. 90.

General Register Office, Dublin,
31st December, 1863.

SIR,

I request you will furnish each Parish Priest within your District—who may apply to you for the same—with *six blank* Forms of Certificates of Marriage, which you will carefully take from the Certificate Book forwarded to you, and also with *six* of the printed Envelopes, addressed to “The Registrar of Births, Deaths, and Marriages.”

By this course—which has been strongly recommended to me by many Dignitaries of the Roman Catholic Church, and approved of by the Law Officers of the Crown*—the convenience of the Catholic Population, especially those of the poorer classes, will be greatly promoted in regard to the Registration of their Marriages.

A *further supply* of Certificates *will be forwarded on your application*—from which *blank Forms* will be furnished by you, from time to time, to those Parish Priests within your District who may require them. You will request each Rev. Gentleman obtaining the Certificates, to give you a receipt for them (on the accompanying Forms), in order that you may be able to account to me for all the Certificates intrusted to your care; and you will furnish me, at the end of each month, with the Names and Addresses of those Clergymen to whom you supply them. You will observe they are on *Water-marked* paper, with the words “Certificate of Marriage” printed thereon.

I beg to say that I feel assured you will discharge the duties of your office with zeal, discretion, and courtesy, and thus largely contribute to the success of the very Important Measures, in the carrying out of which you have so readily undertaken to assist by accepting the office of Registrar.

I am, Sir,

Your obedient Servant,

WILLIAM DONNELLY

Registrar-General.

To the

Registrar of Births, Deaths, and Marriages,

District of _____

* The Right Honorable Thomas O'Hagan, Attorney-General (now Lord O'Hagan); and James A. Lawson, Esq., Solicitor-General—now a Judge of the Common Pleas.

INDEX OF SUPERINTENDENT REGISTRARS' DISTRICTS.

[The following Index furnishes a reference to the *Number* of each Superintendent Registrar's District in the Topographical Arrangement adopted in the Tables of Abstracts contained in the Report, in which the numbers run consecutively from 1 to 163.*]

TOPOGRAPHICAL DESCRIPTION of the EIGHT DIVISIONS into which IRELAND has been divided for Statistical purposes.

No. I. The North-Eastern Division.—This division may be described by a line passing southward from Lough Foyle through the counties of Londonderry, Tyrone, and Armagh, to Lough Bawn, in the county of Monaghan, and thence eastward to Carlingford Lough; the north and east being on the seaboard.

No. II. The North-Western Division is bounded on the east by the division just described, from Lough Foyle to a point a little south of Six Mile Cross, in the county of Tyrone, and may be described by a line drawn thence S.W. through the county of Fermanagh to the south of Enniskillen, embracing that portion of the north-west angle of the county of Cavan belonging to the Enniskillen Union, into the county of Leitrim, crossing Lough Allen, thence into the county of Sligo, to a point situated to the southward of the town of Ballymote, and thence extending north to Ballysadare Bay; the remainder of the division is bounded by the sea. It contains Loughs Erne and Derg, and part of Lough Allen, and large portions of it are mountainous.

No. III. The Eastern Division is situated in the provinces of Leinster and Ulster; it extends along the Irish Sea and St. George's Channel, from Warrenspoint, in the county of Down, to the south of Cahore Point, in the county of Wexford, stretching inland about twenty-five miles, and embracing the counties of Louth, Dublin, and Wicklow, and portions of the counties of Carlow, Cavan, Kildare, Meath, and Wexford; together with small portions of the counties of Armagh and Monaghan.

No. IV. The North Midland Division is situated in the provinces of Leinster, Ulster, and Connaught, and extends southward from its junction with the "North-Western" division near Six Mile Cross, in the county of Tyrone, to Tyrrellspass, in the county of Westmeath. Virginia, in the county of Cavan, is situated on its eastern border, and Tusk, in the county of Roscommon, on its western.

No. V. The South Midland Division situated in the provinces of Leinster and Munster, extends from the Hill of Down, in the county of Meath, southward to Borris, in the county of Carlow. Its southern boundary may be described by a line drawn thence to New Birmingham, in the county of Tipperary, and from that point south to Fethard, in the same county, thence westward to the northern base of the Galty Mountains, and in a north-westerly direction, to Pallasgreen, in the county of Limerick. On the east it is bounded by the "Eastern" division, and on the west by the "Western" and the "South-Western" divisions.

No. VI. The Western Division.—This division extends southwards from Sligo and Killala Bays to the northern bank of the River Shannon, lying westward of Limerick; the extreme points, north and south, being Benwee Head, in the county of Mayo, and Loop Head, in the county of Clare, a distance in or about 120 miles, which, however, does not represent the extent of seaboard, the western coast being indented by numerous bays and inlets. This division has been extended much more inland than the eastern division, as from its exposure to the Atlantic Ocean, and the prevalence of westerly winds (which blow for nearly three-fourths of the year), the climate must be affected for a considerable distance inland; the Unions situated on the extreme east are Boyle, Castlereagh, Glennamaddy, Mountbellew, Ballinasloe, and Portumna.

No. VII. The South-Eastern Division.—This division extends from its junction with the "Eastern" division southward of Cahore Point, in the county of Wexford, along the eastern and southern coasts to the east of Cork Harbour, and is bounded on the north by the South Midland division. It embraces the county of Waterford; nearly the whole of the county of Wexford; parts of the counties of Carlow, Kilkenny, and Tipperary; that portion of the county of Limerick (38,550 acres) comprised in the Mitchelstown Union, and a portion of the eastern side of Cork County.

No. VIII. The South-Western Division extends along the southern and western coasts from Cork Harbour to the river Shannon, and embraces the county of Kerry, nearly the whole of the counties of Cork and Limerick, and a small portion of the county of Clare, comprised in the Limerick Union.

POPULATION OF IRELAND (including Army, Navy, and Merchant Seamen on shore and in port)
estimated to the middle of each of the Years 1801 to 1872, inclusive:—

Middle of the Years	Estimated POPULATION.			Middle of the Years	Estimated POPULATION.			Middle of the Years	Estimated POPULATION.		
	Persons.	Males.	Females.		Persons.	Males.	Females.		Persons.	Males.	Females.

NOTE.—This table has been constructed for the years 1801 to 1831—By adopting the rates of increase of the male and female population between 1821 and 1831, as shown by the Irish Census Reports of 1831—the first complete Census of Ireland having been taken in 1821.

1832 to 1841—By adopting the rate of increase between the population of 1831 and 1841, according to the Irish Census Report of 1841.

1842 to 1846—By taking the English average birth-rate of 1 in 31, and death-rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871—The English birth and death rates, as above, were used, deducting the number of emigrants according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871 as explained for the last period.

1872—The English birth and death rates have been employed, deducting the number of emigrants according to the returns received by the Registrar-General.
