Live Register

August 2009

	Live Register Total	Seasonally Adjusted
August 2008	247,384	236,100
July 2009	435,735	423,400
August 2009	440,056	428,800
Change in month	+ 4,321	+ 5,400
Change in year	+192,672	+192,700

Seasonally adjusted Live Register rises to 428,800 in August

The seasonally adjusted Live Register total increased from 423,400 in July to 428,800 in August, an increase of 5,400. *See table 2a and graph opposite.*

In the year to August 2009, there was an unadjusted increase of 192,672 (+77.9%). This compares with an unadjusted increase of 197,495 (+82.9%) in the year to July 2009.

Other features include:

- ◆ The monthly increase in the seasonally adjusted series consisted of an increase of 3,400 males and an increase of 2,000 females. *See table 2a.*
- ◆ The average net weekly increase in the seasonally adjusted series in August was 1,350, which compares with a figure of 2,100 in the previous month. *See table 2a and background notes.*
- ◆ The standardised unemployment rate in August was 12.4%. This compares with 10.2% in the first quarter of 2009, the latest seasonally adjusted unemployment rate from the Quarterly National Household Survey. *See table 3 and background notes.*
- ◆ In the month, the estimated number of casual and part-time workers on the Live Register was 37,749 males and 32,354 females. *See background notes.*

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest seasonally adjusted figure, for January to March 2009, is 223,400 persons unemployed.

Additional Live Register tables for August 2009 will be available on Friday 4th September 2009.

For more information contact Elma Mulcahy at 021 453 5151, Martina O'Callaghan at 021 453 5491 or Brendan Curtin at 021 453 5577.

	August	4	286,275 + 726	153,781 + 354	440,056 + 1,080		

¹ Average net weekly changes are calculated by dividing the total monthly change by the number of weeks in the reference month.

Background Notes

Source and scope of the Live Register The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social and Family Affairs. It comprises persons under 65 years of age in the following classes:

- ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

Reference Period The reference periods for the Live Register results are as follows:
 August 2009 – 1st August 2009 to 28th August 2009
 August 2008 – 26th July 2008 to the 29th August 2008

Descriptive articles The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the *Statistical Bulletin*. The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the “Report of the Inter-Departmental Study Group on Unemployment Statistics” (Stationery Office Dublin, Prl.7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the *Statistical Bulletin*.

Unemployment statistics The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. **Unemployment is measured by the Quarterly National Household Survey** (formerly the Annual Labour Force Survey).

Standardised unemployment rates The Standardised Unemployment Rate (SUR) series in Table 3 is based on the estimated number of persons unemployed expressed as a percentage of the total economically active population (i.e. the Labour Force), using internationally comparable definitions of employment and unemployment, as recommended by the International Labour Office. Benchmark estimates of the SUR for February, May, August and November of each year are calculated using seasonally adjusted data from the Quarterly National Household Survey. The monthly trend in the seasonally adjusted Live Register is then used to estimate the monthly SUR between successive surveys.

This approach was temporarily suspended following the rapid decline in the Live Register after September 1996. A linear interpolation estimation approach was used between April 1996 and April 1997, as the Live Register series could not be used as an indicator of monthly trends in unemployment during that period. The traditional estimation approach has been used from April 1997 onwards.

QNHS The Quarterly National Household Survey (QNHS), which began in September 1997, replaced the Labour Force Survey and provides quarterly estimates of the unemployment rate. Up to and including the fourth quarter of 2008 the QNHS operated on a seasonal quarter basis. As of the first quarter 2009 the QNHS is now undertaken on a calendar quarter basis.

The calendar reference quarters for survey results are:

Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.

The calendar quarter estimates (adjusted for seasonality) are:

	Q1	Q2	Q3	Q4
	%	%	%	%
2004	4.9	4.3	4.3	4.5
2005	4.2	4.5	4.4	4.3
2006	4.4	4.4	4.5	4.3
2007	4.5	4.6	4.5	4.8
2008	4.9	5.5	6.8	8.1
2009	10.2			

Seasonal adjustment The seasonal adjustment of the Live Register is completed using the X-11 Variant of the US Bureau of Census Method 2 (Additive Option). The seasonally adjusted series are updated twice yearly, in January and July; pending the next updating, seasonal adjustment for intervening months is carried out using projected seasonal factors. In Tables 2a, b and c, the seasonally adjusted totals are the sum of the relevant seasonally adjusted series for males and females, under and over 25 years.

Casual and part-time workers The casual and part-time workers' figure is based on an estimate supplied by the Department of Social and Family Affairs. People may apply for Jobseekers Benefit/Allowance if they only work for part of a week and be included on the Live Register.
