

Live Register July 2010

	Live Register All Persons	Seasonally Adjusted
July 2009	432,421	418,100
June 2010	452,882	444,000
July 2010	466,824	452,500
Change in month	+ 13,942	+ 8,500
Change in year	+ 34,403	+ 34,400

Seasonally adjusted Live Register rises to 452,500 in July

The seasonally adjusted Live Register total increased from 444,000 in June to 452,500 in July, an increase of 8,500. *See table 2a and graph opposite.*

In the year to July 2010 there was an unadjusted increase in the Live Register of 34,403 (+8.0%). This compares with an increase of 37,420 (+9.0%) in the year to June 2010.

Other features include:

- ◆ There was an increase of 3,900 males and 4,600 females in the seasonally adjusted series in July. *See table 2a.*
- ◆ The average net weekly increase in the seasonally adjusted series in July 2010 was 1,700, which compares with a weekly increase of 1,275 in the previous month. *See table 2a and background notes.*
- ◆ The standardised unemployment rate in July was 13.7%. This compares with 12.9% in the first quarter of 2010, the latest seasonally adjusted unemployment rate from the Quarterly National Household Survey. *See table 3 and background notes.*

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest seasonally adjusted figure, for January to March 2010, is 277,400 persons unemployed.

The *Live Register Additional Tables* release has been discontinued. Live Register tables by region and nationality grouping are now contained in this release. Additional new tables on Live Register flows, last occupation and duration of registration are now also published in this release. Live Register monthly data from these tables along with other data previously included in the *Live Register Additional Tables* release can be found on CSO Database Direct. *See background notes for more details.*

Live Register schemes analysis

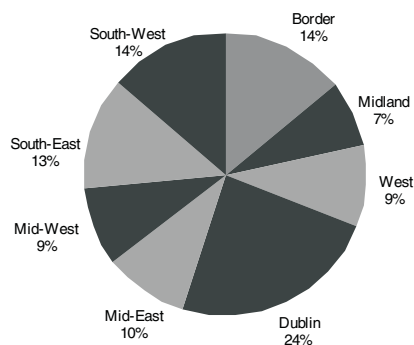

In July there were 149,728 Jobseekers Benefit (JB) claimants on the Live Register, a monthly increase of 3,651 (+2.5%). Jobseekers Allowance (JA) applications increased by 9,053 (+3.2%) to 291,594 in the month, while other registrants increased by 1,238 (+5.1%) to 25,502. *See table 1a.*

In the year to July 2010 JB claims fell by 47,260 (-24.0%), while JA applications and other registrants both increased by 72,131 (+32.9%) and 9,532 (+59.7%) respectively. *See table 1a.*

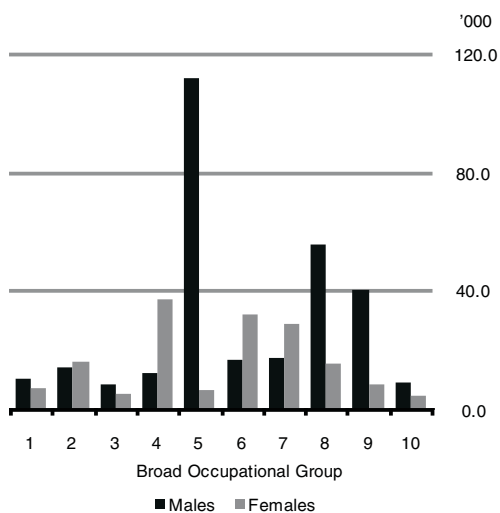

In July there were 60,187 new registrants on the Live Register, which compares with 47,262 in the previous month. New registrants consisted of 29,643 JB claims (49.3%), 27,625 JA applications (45.9%) and 2,919 other registrants (4.8%). It should be noted that the number of new registrants is not the same as the overall change in the number of people on the Live Register which is also effected by closed claims and the movement of people between schemes. *See table 4.*

On average 12,037 new registrants joined the Live Register each week in July, comprising 6,285 males (52.2%) and 5,753 (47.8%) females. In comparison in January 2010 12,384 new registrants joined the Live Register each week, consisting of 7,871 males (63.6%) and 4,514 (36.4%) females. *See table 4.*

Live Register classified by Regional Authority, July 2010

Live Register classified by Last Held Occupation, July 2010

KEY

- 1- Managers and administrators
- 2- Professional
- 3- Associate professional and technical
- 4- Clerical and secretarial
- 5- Craft and related
- 6- Personal and protective service
- 7- Sales
- 8- Plant and machine operatives
- 9- Other occupation
- 10- No occupation

Live Register regional analysis

There was an unadjusted monthly increase of 13,942 (+3.1%) on the Live Register in July, which was reflected in all of the eight regions. The largest percentage increase was in the West region (+3.9%), while the next largest increase was in the Mid-West region (+3.5%). The smallest percentage increase was in the South-East region (+2.5%). *See table 5.*

The unadjusted annual increase of 8.0% on the Live Register in the year to July 2010 was also reflected in all of the eight regions. The largest percentage increase was in the South-East region (+9.5%), followed by the Border region (+8.7%). The smallest percentage increase was recorded in the West region (+5.9%). *See table 5.*

Live Register occupational groups¹

For the first time data by previously stated occupation is included in the Live Register release. This data is only available from October 2009 so the analysis at this point focuses on monthly and six monthly changes.

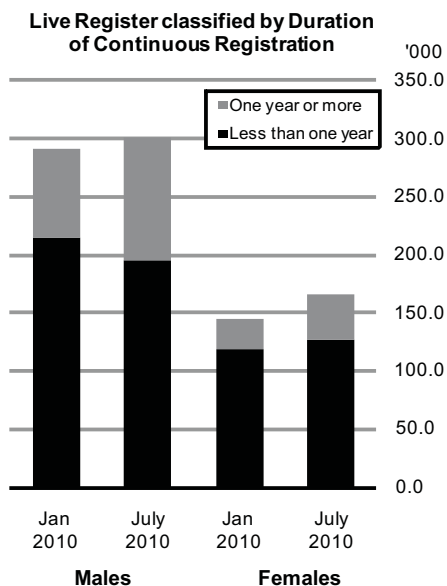

Craft and related (25.6%) was the largest occupational group on the Live Register in July, followed by *Plant and machine operatives* (15.4%) and *Clerical and secretarial* (10.8%). In January 2010 *Craft and related* (27.4%) was also the largest occupational group. *See table 6.*

All occupational groups showed monthly Live Register increases in July. The largest percentage increase was in the *Professional* group (+12.3%), while the smallest percentage increase was in the *Craft and related* group (+0.1%). *See table 6.*

In the six months to July 2010 all occupational groups showed Live Register increases with the largest percentage increase in *Professional* (+22.8%), while the next largest increases were in *Clerical and secretarial* (+15.6%) and *Sales* (+13.0%). The smallest percentage increase was in the *Craft and related* group (+0.1%). *See table 6.*

There were increases in eight of the nine occupational groups in the six months to July 2010 for males on the Live Register. The largest percentage increase was in the *Sales* group (+12.0%), with the only decrease in the *Managers and administrators* group (-1.8%). For females there were increases in all occupational groups in the six months to July 2010. The largest percentage increase was in the *Professional* group (+38.0%) followed by the *Other occupations* group (+26.6%). *See table 6.*

¹ While the 'No Occupation' groups are excluded from the analysis their subtotals are included in the relevant calculations presented in the text.

Live Register duration of continuous registration

There was a monthly increase of 6,583 (+2.1%) in short term (less than one year) claimants on the Live Register in July, while the number of long term claimants increased by 7,359 (+5.4%). The monthly change in short term claimants consisted of a decrease of 1,637 males and an increase of 8,220 females. For long term claimants males and females increased by 5,039 and 2,320 respectively. *See table 7.*

In July 322,270 (69.0%) of all claimants on the Live Register were short term, a decrease from 333,979 (76.4%) in January 2010. This fall consisted of a decrease of 20,055 male short term claimants and an increase of 8,346 female short term claimants. In the six months to July 2010 the number of long term male claimants increased by 28,867 (+37.9%), while the comparable increase for females was 12,730 (+47.4%). *See table 7 and graph opposite.*

Live Register casual and part-time workers

There were 79,072 casual and part-time workers on the Live Register in July, which represents 16.9% of the total Live Register. This compares with 16.1% one year earlier when there were 69,553 casual and part-time workers on the Live Register.

There was a monthly decrease of 167 (-0.2%) in casual and part-time workers on the Live Register in July, which consisted of a decrease of 166 males and 1 female. In the year to July 2010 the number of casual and part-time workers increased by 9,519 (+13.7%), with the number of males increasing by 4,209 (+11.2%) and the number of females increasing by 5,310 (+16.5%). *See table 8.*

Live Register nationality groupings

In July there were 387,612 Irish nationals and 79,212 non-Irish nationals on the Live Register. This represents a monthly increase of 13,575 (+3.6%) in Irish nationals and an increase of 367 (+0.5%) in non-Irish nationals. Among non-Irish nationals, the largest number on the Live Register were nationals from the EU15 to EU27 States at 41,846, followed by 18,979 nationals from the UK. *See table 9.*

In the year to July 2010 the number of Irish nationals on the Live Register increased by 35,289 (+10.0%), while the number of non-Irish nationals decreased by 886 (-1.1%). *See table 9.*

¹ Flow analysis: inflows and outflows published in this table do not take account of inter-scheme activity within the Live Register. For example, if a claimant exhausts his/her entitlement to JB and opens a new JA claim this is counted as an outflow in JB and an inflow in JA.

² Data available from October 2009.

Background Notes

Source and scope of the Live Register The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social Protection. It comprises persons under 65 years of age in the following classes:

- ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

Reference Period The reference periods for the Live Register results are as follows:
 July 2010 – 26th June 2010 to 30th July 2010
 July 2009 – 27th June 2009 to 31st July 2009

Unemployment statistics The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. **Unemployment is measured by the Quarterly National Household Survey** (formerly the Annual Labour Force Survey).

Standardised unemployment rates The Standardised Unemployment Rate (SUR) series in Table 3 is based on the estimated number of persons unemployed expressed as a percentage of the total economically active population (i.e. the Labour Force), using internationally comparable definitions of employment and unemployment, as recommended by the International Labour Office. Benchmark estimates of the SUR for February, May, August and November of each year are calculated using seasonally adjusted data from the Quarterly National Household Survey. The monthly trend in the seasonally adjusted Live Register is then used to estimate the monthly SUR between successive surveys. The traditional estimation approach has been used from April 1997 onwards.

QNHS The Quarterly National Household Survey (QNHS), which began in September 1997, replaced the Labour Force Survey and provides quarterly estimates of the unemployment rate. Up to and including the fourth quarter of 2008 the QNHS operated on a seasonal quarter basis. As of the first quarter 2009 the QNHS is now undertaken on a calendar quarter basis.

The calendar reference quarters for survey results are:

Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.

The calendar quarter estimates for Q2 2010 (adjusted for seasonality) are:

	Q1	Q2	Q3	Q4
	%	%	%	%
2005	4.2	4.6	4.4	4.3
2006	4.4	4.4	4.5	4.3
2007	4.5	4.5	4.4	4.8
2008	4.9	5.5	6.8	8.1
2009	10.2	11.6	12.3	13.3
2010	12.9			

Seasonal adjustment The seasonal adjustment of the Live Register is completed using the X-11 Variant of the US Bureau of Census Method 2 (Additive Option). The seasonally adjusted series are updated twice yearly, in January and July; pending the next updating, seasonal adjustment for intervening months is carried out using projected seasonal factors. In Tables 2a, b and c, the seasonally adjusted totals are the sum of the relevant seasonally adjusted series for males and females, under and over 25 years.

- Jobseekers Benefit Duration** Prior to 19 January 2004 Jobseekers Benefit was payable for **15 months** (390 days).
From 19 January 2004, Jobseeker's Benefit could be paid for a maximum of **15 months** (390 days) to people who had at least 260 paid PRSI contributions. Jobseeker's Benefit could be paid for a maximum of **12 months** (312 days) to people who had less than 260 paid contributions. (Refers to new claims).

Since 15 October 2008, Jobseeker's Benefit can be paid for a maximum of **12 months** (312 days) to people who have at least 260 paid PRSI contributions. Jobseeker's Benefit can be paid for a maximum of **9 months** (234 days) to people who have less than 260 paid contributions. (Refers to new claims).
- Live Register Flows** Live Register flows data is sourced from information collected by the Department of Social Protection. The aggregate of new registrations for each month is used in conjunction with the net change over the same period to calculate the outflow from the register. A new registration is defined as anybody on the Live Register in a particular month who was not on it the previous month. Inflows and outflows published in this release do not take account of inter-scheme activity within the Live Register. For example, if a claimant exhausts his/her entitlement to JB and opens a new JA claim this is counted as an outflow in JB and an inflow in JA.
- Live Register Area Analysis** The basis of the area analysis in Live Register statistics is the Department of Social Protection local office of registration. The areas served by Local Employment Offices do not correspond to specific geographic boundaries. Therefore, registrants at a given local office do not necessarily come from a particular region or area which can be precisely delineated e.g. data for the Cork City Local Office of Registration refers to all persons signing on in Cork City but may include persons not resident in Cork City. **The latest available Live Register data by province, county and local office of registration will be released on the CSO website one day after the publication of this release.**
- NUTS2 and NUTS3 regions** The Regional classifications are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions.

Border, Midland and Western NUTS2 Region

Southern and Eastern NUTS2 Region

Border	Cavan Donegal Leitrim Louth Monaghan Sligo	Dublin	Dublin City Dun Laoghaire-Rathdown Fingal South Dublin
Midland	Laois Longford Offaly Westmeath	Mid-East	Kildare Meath Wicklow
West	Galway City Galway County Mayo Roscommon	Mid-West	Clare Limerick City Limerick County North Tipperary
		South-East	Carlow Kilkenny South Tipperary Waterford City Waterford County Wexford
		South-West	Cork City Cork County Kerry

- Occupations** Live Register occupational data is sourced from information collected by the Department of Social Protection on the most recent occupation of claimants when they sign on the Live Register. The classification used is based on the UK Standard Occupational Classification (SOC). “No occupation” is an additional category and includes those who have never worked and those who have no stated occupation.
- Age by Duration Analysis** Duration of continuous registration on the Live Register was previously compiled on a half-yearly basis (April and October). The Live Register Age by Duration release has now been replaced by a monthly table in this release. The bi-annual release related to the second last Friday of the reference month but the monthly age by duration data since October 2009 corresponds to the end of month Live Register totals. **Detailed tables relating to regional and scheme data will continue to be made available through the Database Direct service on the CSO website on a bi-annual basis.**
- Casual and part-time workers** The casual and part-time workers’ figure is based on data supplied by the Department of Social Protection. People may apply for Jobseekers Benefit or Jobseekers Allowance if they only work for part of a week and be included on the Live Register.
- Nationality** Data in the nationality grouping table is sourced from information collected by the Department of Social Protection on the nationality of claimants when they first sign on the Live Register.

New Release Format

From July 2010 the Live Register release has been revised and now contains additional tables. This coincides with the discontinuation of both the *Live Register Additional Tables* and *Live Register Age by Duration* releases.

A table containing Live Register flows information has replaced the net weekly change table. Flows data was compiled by CSO until March 2008 when the series was discontinued. The new table on flows contains data dating back to October 2009. It should be noted that the compilation of flows changed when the Department of Social Protection introduced a new IT system in October 2009 and so there is no data available on Live Register flows between March 2008 and October 2009.

While information on the latest number of casual and part-time workers on the Live Register was previously included on the monthly release since March 2002, a table is now contained in the release providing a time-series with additional monthly change information.

Since October 2009 the Department of Social Protection has provided a classification of the Live Register by occupational groupings. This table is now included in the monthly release and refers to the last held occupation that Live Register claimants report.

Live Register tables classified by region and nationality groupings have been added to the new release, as has a monthly table of duration of continuous registration. More detailed information on geographic breakdowns of the Live Register and duration of continuous registration along with all Live Register published data can be found on the Database Direct on the CSO website –
