

## Live Register November 2010

	<b>Live Register All Persons</b>	<b>Seasonally Adjusted</b>
<b>November 2009</b>	413,505	427,000
<b>October 2010</b>	429,553	443,000
<b>November 2010</b>	425,002	438,800
<b>Change in month</b>	- 4,551	- 4,200
<b>Change in year</b>	+ 11,497	+ 11,800

### Seasonally adjusted Live Register decreases by 4,200 in November

On a seasonally adjusted basis there was a monthly decrease of 4,200 in the Live Register in November 2010. The number of persons on the Live Register now stands at 425,002 which represents an annual increase of 11,497 (+2.8%) in the unadjusted series. This compares with an increase of 17,146 (+4.2%) in the year to October 2010. *See tables 1, 2a and graph opposite.*

Other features include:

- ◆ There was a decrease of 2,600 males and 1,600 females in the seasonally adjusted series in November. *See table 2a and background notes.*
- ◆ The average net weekly decrease in the seasonally adjusted series in November 2010 was 1,050, which compares with a weekly decrease of 1,320 in the previous month.
- ◆ The standardised unemployment rate in November was 13.5%, down from 13.6% in October. This compares with 13.2% in the second quarter of 2010, the latest seasonally adjusted unemployment rate from the Quarterly National Household Survey. *See table 3 and background notes.*

**The Live Register is not designed to measure unemployment.** It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest seasonally adjusted figure, for April to June 2010, is 284,500 persons unemployed.

The *Live Register Additional Tables* release has been discontinued. Live Register data by Province, County and Local Office of Registration can be accessed on CSO Main Data Dissemination Service, Database Direct. *See background notes for more details.*

**Live Register classified by Regional Authority, November 2010**

**Live Register classified by Last Held Occupation, November 2010**

**KEY**

- 1- Managers and administrators
- 2- Professional
- 3- Associate professional and technical
- 4- Clerical and secretarial
- 5- Craft and related
- 6- Personal and protective service
- 7- Sales
- 8- Plant and machine operatives
- 9- Other occupation
- 10- No occupation

**Live Register schemes analysis**

In November there were 119,000 Jobseekers Benefit (JB) claimants on the Live Register, a monthly decrease of 3,716 (-3.0%), while the number of Jobseekers Allowance (JA) applicants decreased by 1,293 (-0.5%) to 279,771. Other registrants increased by 458 (+1.8%) to 26,231. See table 1a.

In the year to November 2010 JB claims fell by 44,701 (-27.3%), while JA applications and other registrants increased by 48,117 (+20.8%) and 8,081 (+44.5%) respectively.

In November there were 40,787 new registrants on the Live Register, which compares with 49,827 in the previous month. New registrants consisted of 19,139 JB claims (46.9%), 19,787 JA applications (48.5%) and 1,861 other registrants (4.6%). On average 6,208 male and 3,989 female new registrants joined the Live Register each week in November. By comparison, in November 2009 7,759 male and 4,275 female new registrants joined the Live Register each week.

It should be noted that the number of new registrants is not the same as the overall change in the number of people on the Live Register which is affected by closed claims and the movement of people between schemes. See table 4.

**Live Register regional analysis**

There was an unadjusted monthly decrease of 4,551 (-1.1%) on the Live Register in November. This decrease was reflected in all of the eight regions, with the largest percentage decrease in Dublin (-2.1%), followed by the Mid-West region (-1.9%). The smallest decrease was in the South-West region (-0.1%). See table 5.

The unadjusted annual increase of 2.8% on the Live Register in the year to November 2010 was reflected in all of the eight regions. The largest percentage increase was in the Mid-East region (+6.0%), followed by the Midland region (+5.7%). The smallest percentage increase was recorded in Dublin (+1.0%).

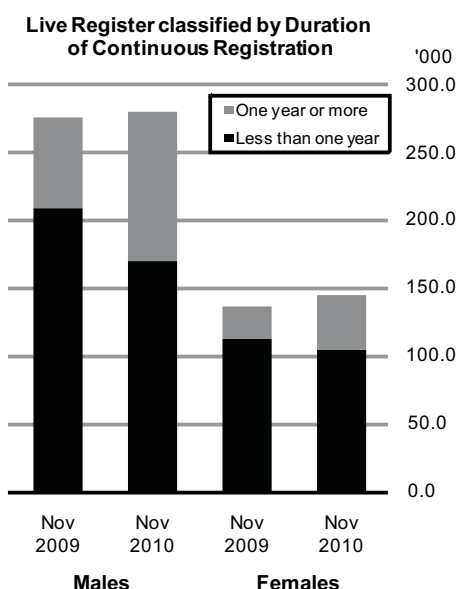

**Live Register occupational groups<sup>1</sup>**

*Craft and related* (26.1%) and *Plant and machine operatives* (15.8%) continued to be the largest groups on the Live Register in November. See table 6.

Seven occupational groups showed monthly Live Register decreases in November. The largest percentage decrease was in the *Professional* group (-6.0%), followed by the *Clerical and secretarial* group (-3.9%).

In the year to November 2010 four occupational groups showed Live Register increases. The largest percentage increase was in the *Other occupations* group (+11.2%), while the next largest increases were in the *Personal and protective service* (+8.8%) and *Sales* (+7.1%) groups. The largest percentage decrease was in the *Managers and administrators* group (-3.7%).

<sup>1</sup> While the 'No Occupation' group is excluded from the analysis its subtotals are included in the relevant calculations presented in the text.

### Live Register duration of continuous registration

There was a monthly unadjusted decrease of 7,270 (-2.6%) in short term (less than one year) claimants on the Live Register in November, while the number of long term claimants increased by 2,719 (1.8%). The monthly change in short term claimants consisted of a decrease of 3,732 males and a decrease of 3,538 females. For long term claimants males showed an increase of 2,361 while females increased by 358. *See table 7.*

In November approximately two thirds (274,675) of all claimants on the Live Register were short term claimants. The comparable figure for November 2009 was 322,158 (77.9%). The fall of 47,483 over the year consisted of a decrease of 38,970 in the number of male short term claimants and a decrease of 8,513 in female short term claimants.

In the year to November 2010 the number of long term male claimants increased by 43,105 (+64.1%), while the comparable increase for females was 15,875 (+66.0%). *See table 7 and graph opposite.*

### Live Register casual and part-time workers

There were 80,208 casual and part-time workers on the Live Register in November, which represents 18.9% of the total Live Register. This compares with 17.8% one year earlier when there were 73,630 casual and part-time workers on the Live Register. *See table 8.*

In the year to November 2010 the number of casual and part-time workers increased by 6,578 (+8.9%), with the number of males increasing by 2,840 (+7.2%) and the number of females increasing by 3,738 (+10.9%).

### Live Register nationality groupings

In November Irish nationals accounted for 82.4% (350,220) of the number of persons on the Live Register. There was a monthly decrease of 4,698 (-1.3%) in Irish nationals and an increase of 147 (+0.2%) in non-Irish nationals. Of the 74,782 non-Irish nationals, the largest constituent group on the Live Register were nationals from the EU15 to EU27 States (40,728), followed by 17,598 nationals from the UK. *See table 9.*

In the year to November 2010 the number of Irish nationals on the Live Register increased by 13,495 (+4.0%), while the number of non-Irish nationals decreased by 1,998 (-2.6%).

## Background Notes

**Source and scope of the Live Register** The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social Protection. It comprises persons under 65 years of age in the following classes:

- ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

**Reference Period** The reference periods for the Live Register results are as follows:  
November 2010 – 30<sup>th</sup> October to 26<sup>th</sup> November 2010.  
November 2009 – 31<sup>st</sup> October to 27<sup>th</sup> November 2009.

**Unemployment statistics** The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. **Unemployment is measured by the Quarterly National Household Survey** (formerly the Annual Labour Force Survey).

**Standardised unemployment rates** The Standardised Unemployment Rate (SUR) series in Table 3 is based on the estimated number of persons unemployed expressed as a percentage of the total economically active population (i.e. the Labour Force), using internationally comparable definitions of employment and unemployment, as recommended by the International Labour Office. Benchmark estimates of the SUR for February, May, August and November of each year are calculated using seasonally adjusted data from the Quarterly National Household Survey. The monthly trend in the seasonally adjusted Live Register is then used to estimate the monthly SUR between successive surveys. The traditional estimation approach has been used from April 1997 onwards.

**QNHS** The Quarterly National Household Survey (QNHS), which began in September 1997, replaced the Labour Force Survey and provides quarterly estimates of the unemployment rate. Up to and including the fourth quarter of 2008 the QNHS operated on a seasonal quarter basis. As of the first quarter 2009 the QNHS is now undertaken on a calendar quarter basis.

The calendar reference quarters for survey results are:

Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.

The calendar quarter estimates for Q2 2010 (adjusted for seasonality) are:

	Q1	Q2	Q3	Q4
	%	%	%	%
2005	4.2	4.6	4.4	4.3
2006	4.4	4.5	4.5	4.3
2007	4.5	4.5	4.5	4.8
2008	4.9	5.5	6.8	8.1
2009	10.2	11.6	12.4	13.1
2010	12.9	13.2		

**Seasonal adjustment** The seasonal adjustment of the Live Register is completed using the X-11 Variant of the US Bureau of Census Method 2 (Additive Option). The seasonally adjusted series are updated twice yearly, in January and July; pending the next updating, seasonal adjustment for intervening months is carried out using projected seasonal factors. In Tables 2a, b and c, the seasonally adjusted totals are the sum of the relevant seasonally adjusted series for males and females, under and over 25 years.

- Jobseekers Benefit Duration** Prior to 19 January 2004 Jobseekers Benefit was payable for **15 months** (390 days).  
From 19 January 2004, Jobseeker's Benefit could be paid for a maximum of **15 months** (390 days) to people who had at least 260 paid PRSI contributions. Jobseeker's Benefit could be paid for a maximum of **12 months** (312 days) to people who had less than 260 paid contributions. (Refers to new claims).  
Since 15 October 2008, Jobseeker's Benefit can be paid for a maximum of **12 months** (312 days) to people who have at least 260 paid PRSI contributions. Jobseeker's Benefit can be paid for a maximum of **9 months** (234 days) to people who have less than 260 paid contributions. (Refers to new claims).
- Live Register Flows** Live Register flows data is sourced from information collected by the Department of Social Protection. The aggregate of new registrations for each month is used in conjunction with the net change over the same period to calculate the outflow from the register. A new registration is defined as anybody on the Live Register in a particular month who was not on it the previous month. Inflows and outflows published in this release do not take account of inter-scheme activity within the Live Register. For example, if a claimant exhausts his/her entitlement to JB and opens a new JA claim this is counted as an outflow in JB and an inflow in JA.
- Live Register Area Analysis** The basis of the area analysis in Live Register statistics is the Department of Social Protection local office of registration. The areas served by Local Employment Offices do not correspond to specific geographic boundaries. Therefore, registrants at a given local office do not necessarily come from a particular region or area which can be precisely delineated e.g. data for the Cork City Local Office of Registration refers to all persons signing on in Cork City but may include persons not resident in Cork City. **The latest available Live Register data by Province, County and Local Office of Registration will be released on the CSO website through the CSO Main Data Dissemination Service, Database Direct one day after the publication of this release.**
- NUTS2 and NUTS3 regions** The Regional classifications are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions.

**Border, Midland and Western NUTS2 Region**

**Southern and Eastern NUTS2**

<b>Border</b>	Cavan Donegal Leitrim Louth Monaghan Sligo	<b>Dublin</b>	Dublin City Dun Laoghaire-Rathdown Fingal South Dublin
<b>Midland</b>	Laois Longford Offaly Westmeath	<b>Mid-East</b>	Kildare Meath Wicklow
<b>West</b>	Galway City Galway County Mayo Roscommon	<b>Mid-West</b>	Clare Limerick City Limerick County North Tipperary
		<b>South-East</b>	Carlow Kilkenny South Tipperary Waterford City Waterford County Wexford
		<b>South-West</b>	Cork City Cork County Kerry

- Occupations** Live Register occupational data is sourced from information collected by the Department of Social Protection on the most recent occupation of claimants when they sign on the Live Register. The classification used is based on the UK Standard Occupational Classification (SOC). “No occupation” is an additional category and includes those who have never worked and those who have no stated occupation.
- Age by Duration Analysis** Duration of continuous registration on the Live Register was previously compiled on a half-yearly basis (April and October). The Live Register Age by Duration release has now been replaced by a monthly table in this release. The bi-annual release related to the second last Friday of the reference month but the monthly age by duration data since October 2009 corresponds to the end of month Live Register totals. **Detailed tables relating to regional and scheme data will continue to be made available on the CSO website through the CSO Main Data Dissemination Service, Database Direct on a bi-annual basis.**
- Casual and part-time workers** The casual and part-time workers’ figure is based on data supplied by the Department of Social Protection. People may apply for Jobseekers Benefit or Jobseekers Allowance if they only work for part of a week and be included on the Live Register.
- Nationality** Data in the nationality grouping table is sourced from information collected by the Department of Social Protection on the nationality of claimants when they first sign on the Live Register.

#### **New Release Format**

From July 2010 the Live Register release has been revised and now contains additional tables. This coincides with the discontinuation of both the *Live Register Additional Tables* and *Live Register Age by Duration* releases.

A table containing Live Register flows information has replaced the net weekly change table. Flows data was compiled by CSO until March 2008 when the series was discontinued. The new table on flows contains data dating back to October 2009. It should be noted that the compilation of flows changed when the Department of Social Protection introduced a new IT system in October 2009 and so there is no data available on Live Register flows between March 2008 and October 2009.

While information on the latest number of casual and part-time workers on the Live Register was previously included on the monthly release since March 2002, a table is now contained in the release providing a time-series with additional monthly change information.

Since October 2009 the Department of Social Protection has provided a classification of the Live Register by occupational groupings. This table is now included in the monthly release and refers to the last held occupation that Live Register claimants report.

Live Register tables classified by region and nationality groupings have been added to the new release, as has a monthly table of duration of continuous registration. **More detailed information on geographic breakdowns of the Live Register and duration of continuous registration along with all Live Register published data can be found on the CSO Main Data Dissemination Service, Database Direct on the CSO website –**
