

Live Register September 2010

	Live Register All Persons	Seasonally Adjusted
September 2009	419,854	426,900
August 2010	466,923	455,000
September 2010	442,417	449,600
Change in month	- 24,506	- 5,400
Change in year	+ 22,563	+ 22,700

Seasonally adjusted Live Register decreases by 5,400 in September

On a seasonally adjusted basis there was a monthly decrease of 5,400 in the Live Register in September 2010. The number of persons on the Live Register now stands at 442,417 which represents an annual increase of 22,563 (+5.4%) in the unadjusted series. This compares with an increase of 30,198 (+6.9%) in the year to August 2010. *See tables 1, 2a and graph opposite.*

Other features include:

- ◆ There was a decrease of 2,600 males and 2,900 females in the seasonally adjusted series in September. *See table 2a.*
- ◆ The average net weekly decrease in the seasonally adjusted series in September 2010 was 1,350, which compares with a weekly increase of 625 in the previous month. *See table 2a and background notes.*
- ◆ The standardised unemployment rate in September was 13.7%, down from 13.8% in August. This compares with 13.2% in the second quarter of 2010, the latest seasonally adjusted unemployment rate from the Quarterly National Household Survey. *See table 3 and background notes.*

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest seasonally adjusted figure, for April to June 2010, is 284,500 persons unemployed.

The *Live Register Additional Tables* release has been discontinued. Live Register data by Province, County and Local Office of Registration can be accessed on CSO Main Data Dissemination Service, Database Direct. *See background notes for more details.*

Live Register schemes analysis

In September there were 128,350 Jobseekers Benefit (JB) claimants on the Live Register, a monthly decrease of 16,490 (-11.4%), while the number of Jobseekers Allowance (JA) claimants decreased by 7,582 (-2.6%) to 288,425. Other registrants decreased by 434 (-1.7%) to 25,642. *See table 1a.*

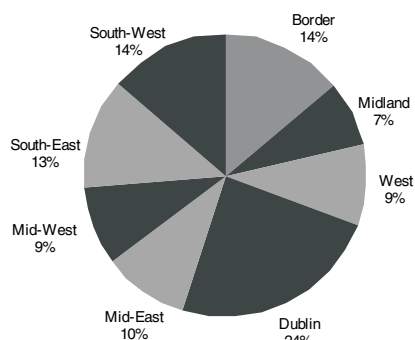

In the year to September 2010 JB claims fell by 49,063 (-27.7%), while JA applications and other registrants increased by 62,745 (+27.8%) and 8,881 (+53.0%) respectively. *See table 1a.*

In September there were 39,960 new registrants on the Live Register, which compares with 36,194 in the previous month. New registrants consisted of 16,952 JB claims (42.4%), 21,276 JA applications (53.2%) and 1,732 other registrants (4.3%). It should be noted that the number of new registrants is not the same as the overall change in the number of people on the Live Register which is affected by closed claims and the movement of people between schemes. *See table 4.*

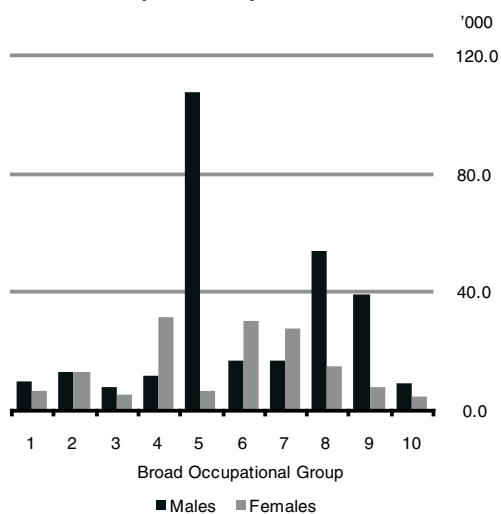

On average 9,990 new registrants joined the Live Register each week in September, comprising 5,905 males (59.1%) and 4,085 (40.9%) females. By comparison, in March 2010 9,935 new registrants joined the Live Register each week, consisting of 6,340 males (63.8%) and 3,595 (36.2%) females. *See table 4.*

Note that data on flows, occupational groups and continuous duration are only available from October 2009. As such annual changes cannot be provided at this stage. To give some indication of change over time six month changes are provided in tables 4, 6 and 7 but caution in interpretation is needed as changes over a six month period will be subject to seasonal effects. From the October 2010 Live Register release onwards a full annual change will be presented in these tables.

Live Register classified by Regional Authority, September 2010

Live Register classified by Last Held Occupation, September 2010

KEY

- 1- Managers and administrators
- 2- Professional
- 3- Associate professional and technical
- 4- Clerical and secretarial
- 5- Craft and related
- 6- Personal and protective service
- 7- Sales
- 8- Plant and machine operatives
- 9- Other occupation
- 10- No occupation

Live Register regional analysis

There was an unadjusted monthly decrease of 24,506 (-5.2%) on the Live Register in September. This decrease was reflected in all of the eight regions, with the largest percentage decrease in the West region (-6.5%), followed by the Border region (-6.3%). The smallest decreases were in the Dublin and Mid-East regions (both -4.3%). *See table 5.*

The unadjusted annual increase of 5.4% on the Live Register in the year to September 2010 was reflected in all of the eight regions. The largest percentage increase was in the Mid-East region (+8.0%), followed by the Midland region (+6.5%). The smallest percentage increase was recorded in the West region (+2.1%). *See table 5.*

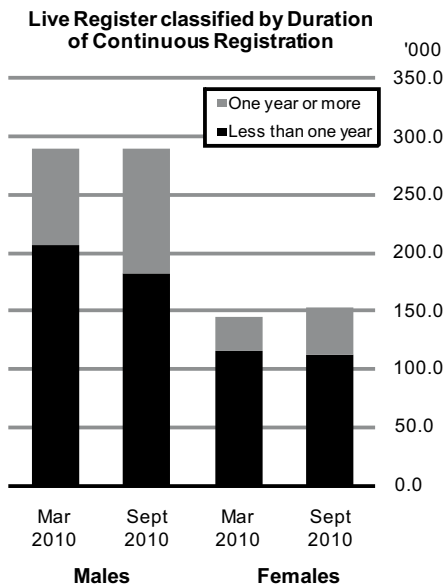

Live Register occupational groups¹

Craft and related (26.0%) was the largest occupational group on the Live Register in September, followed by *Plant and machine operatives* (15.7%) and *Other occupation* (10.9%). In March 2010 *Craft and related* (27.4%) was also the largest occupational group. *See table 6.*

All of the nine occupational groups showed monthly Live Register decreases in September. The largest percentage decrease was in the *Professional* group (-14.0%), followed by the *Clerical and secretarial* group (-11.8%). *See table 6.*

In the six months to September 2010 three occupational groups showed Live Register decreases with the largest percentage decrease in *Craft and related* (-3.6%), followed by *Managers and administrators* (-1.7%) and *Plant and machine operatives* (-1.2%). The largest percentage increase was in the *Professional* group (+12.2%), while the next largest increase was in the *Associate, professional and technical* group (+6.8%). *See table 6.*

¹ While the 'No Occupation' groups are excluded from the analysis their subtotals are included in the relevant calculations presented in the text.

Live Register duration of continuous registration

There was a monthly unadjusted decrease of 23,885 (-7.5%) in short term (less than one year) claimants on the Live Register in September, while the number of long term claimants decreased by 621 (-0.4%). The monthly change in short term claimants consisted of a decrease of 10,049 males and a decrease of 13,836 females. For long term claimants males and females decreased by 104 and 517 respectively. *See table 7.*

In September approximately two thirds (294,636) of all claimants on the Live Register were short term claimants. The comparable figure for March 2010 was 323,388 (74.3%). This fall consisted of a decrease of 25,428 in the number of male short term claimants and a decrease of 3,324 in female short term claimants.

In the six months to September 2010 the number of long term male claimants increased by 25,010 (+30.2%), while the comparable increase for females was 11,038 (+38.0%). *See table 7 and graph opposite.*

Live Register casual and part-time workers

There were 76,879 casual and part-time workers on the Live Register in September, which represents 17.4% of the total Live Register. This compares with 16.9% one year earlier when there were 70,858 casual and part-time workers on the Live Register.

There was a monthly unadjusted decrease of 1,403 (-1.8%) in casual and part-time workers on the Live Register in September, which consisted of a decrease of 763 males and 640 females. In the year to September 2010 the number of casual and part-time workers increased by 6,021 (+8.5%), with the number of males increasing by 2,131 (+5.6%) and the number of females increasing by 3,890 (+11.9%). *See table 8.*

Live Register nationality groupings

In September there were 365,972 Irish nationals, accounting for almost 83% of the total number on the Live Register, and 76,445 non-Irish nationals on the Live Register. This represents a monthly decrease of 22,094 (-5.7%) in Irish nationals and a decrease of 2,412 (-3.1%) in non-Irish nationals. Among non-Irish nationals, the largest constituent group on the Live Register were nationals from the EU15 to EU27 States (40,427), followed by 18,190 nationals from the UK. *See table 9.*

In the year to September 2010 the number of Irish nationals on the Live Register increased by 23,861 (+7.0%), while the number of non-Irish nationals decreased by 1,298 (-1.7%). *See table 9.*

¹ Flow analysis: inflows and outflows published in this table do not take account of inter-scheme activity within the Live Register. For example, if a claimant exhausts his/her entitlement to JB and opens a new JA claim this is counted as an outflow in JB and an inflow in JA.

² Data available from October 2009.

¹ Revised.

Background Notes

Source and scope of the Live Register The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social Protection. It comprises persons under 65 years of age in the following classes:

- ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

Reference Period The reference periods for the Live Register results are as follows:
September 2010 – 28th August 2010 to 24th September 2010
September 2009 – 29th August 2009 to 25th September 2009

Unemployment statistics The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. **Unemployment is measured by the Quarterly National Household Survey** (formerly the Annual Labour Force Survey).

Standardised unemployment rates The Standardised Unemployment Rate (SUR) series in Table 3 is based on the estimated number of persons unemployed expressed as a percentage of the total economically active population (i.e. the Labour Force), using internationally comparable definitions of employment and unemployment, as recommended by the International Labour Office. Benchmark estimates of the SUR for February, May, August and November of each year are calculated using seasonally adjusted data from the Quarterly National Household Survey. The monthly trend in the seasonally adjusted Live Register is then used to estimate the monthly SUR between successive surveys. The traditional estimation approach has been used from April 1997 onwards.

QNHS The Quarterly National Household Survey (QNHS), which began in September 1997, replaced the Labour Force Survey and provides quarterly estimates of the unemployment rate. Up to and including the fourth quarter of 2008 the QNHS operated on a seasonal quarter basis. As of the first quarter 2009 the QNHS is now undertaken on a calendar quarter basis.

The calendar reference quarters for survey results are:
Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.

The calendar quarter estimates for Q2 2010 (adjusted for seasonality) are:

	Q1	Q2	Q3	Q4
	%	%	%	%
2005	4.2	4.6	4.4	4.3
2006	4.4	4.5	4.5	4.3
2007	4.5	4.5	4.5	4.8
2008	4.9	5.5	6.8	8.1
2009	10.2	11.6	12.4	13.1
2010	12.9	13.2		

Seasonal adjustment The seasonal adjustment of the Live Register is completed using the X-11 Variant of the US Bureau of Census Method 2 (Additive Option). The seasonally adjusted series are updated twice yearly, in January and July; pending the next updating, seasonal adjustment for intervening months is carried out using projected seasonal factors. In Tables 2a, b and c, the seasonally adjusted totals are the sum of the relevant seasonally adjusted series for males and females, under and over 25 years.

- Jobseekers Benefit Duration** Prior to 19 January 2004 Jobseekers Benefit was payable for **15 months** (390 days).
From 19 January 2004, Jobseeker's Benefit could be paid for a maximum of **15 months** (390 days) to people who had at least 260 paid PRSI contributions. Jobseeker's Benefit could be paid for a maximum of **12 months** (312 days) to people who had less than 260 paid contributions. (Refers to new claims).
Since 15 October 2008, Jobseeker's Benefit can be paid for a maximum of **12 months** (312 days) to people who have at least 260 paid PRSI contributions. Jobseeker's Benefit can be paid for a maximum of **9 months** (234 days) to people who have less than 260 paid contributions. (Refers to new claims).
- Live Register Flows** Live Register flows data is sourced from information collected by the Department of Social Protection. The aggregate of new registrations for each month is used in conjunction with the net change over the same period to calculate the outflow from the register. A new registration is defined as anybody on the Live Register in a particular month who was not on it the previous month. Inflows and outflows published in this release do not take account of inter-scheme activity within the Live Register. For example, if a claimant exhausts his/her entitlement to JB and opens a new JA claim this is counted as an outflow in JB and an inflow in JA.
- Live Register Area Analysis** The basis of the area analysis in Live Register statistics is the Department of Social Protection local office of registration. The areas served by Local Employment Offices do not correspond to specific geographic boundaries. Therefore, registrants at a given local office do not necessarily come from a particular region or area which can be precisely delineated e.g. data for the Cork City Local Office of Registration refers to all persons signing on in Cork City but may include persons not resident in Cork City. **The latest available Live Register data by Province, County and Local Office of Registration will be released on the CSO website through the CSO Main Data Dissemination Service, Database Direct one day after the publication of this release.**
- NUTS2 and NUTS3 regions** The Regional classifications are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions.

Border, Midland and Western NUTS2 Region

Southern and Eastern NUTS2

Border	Cavan Donegal Leitrim Louth Monaghan Sligo	Dublin	Dublin City Dun Laoghaire-Rathdown Fingal South Dublin
Midland	Laois Longford Offaly Westmeath	Mid-East	Kildare Meath Wicklow
West	Galway City Galway County Mayo Roscommon	Mid-West	Clare Limerick City Limerick County North Tipperary
		South-East	Carlow Kilkenny South Tipperary Waterford City Waterford County Wexford
		South-West	Cork City Cork County Kerry

- Occupations** Live Register occupational data is sourced from information collected by the Department of Social Protection on the most recent occupation of claimants when they sign on the Live Register. The classification used is based on the UK Standard Occupational Classification (SOC). “No occupation” is an additional category and includes those who have never worked and those who have no stated occupation.
- Age by Duration Analysis** Duration of continuous registration on the Live Register was previously compiled on a half-yearly basis (April and October). The Live Register Age by Duration release has now been replaced by a monthly table in this release. The bi-annual release related to the second last Friday of the reference month but the monthly age by duration data since October 2009 corresponds to the end of month Live Register totals. **Detailed tables relating to regional and scheme data will continue to be made available on the CSO website through the CSO Main Data Dissemination Service, Database Direct on a bi-annual basis.**
- Casual and part-time workers** The casual and part-time workers’ figure is based on data supplied by the Department of Social Protection. People may apply for Jobseekers Benefit or Jobseekers Allowance if they only work for part of a week and be included on the Live Register.
- Nationality** Data in the nationality grouping table is sourced from information collected by the Department of Social Protection on the nationality of claimants when they first sign on the Live Register.

New Release Format

From July 2010 the Live Register release has been revised and now contains additional tables. This coincides with the discontinuation of both the *Live Register Additional Tables* and *Live Register Age by Duration* releases.

A table containing Live Register flows information has replaced the net weekly change table. Flows data was compiled by CSO until March 2008 when the series was discontinued. The new table on flows contains data dating back to October 2009. It should be noted that the compilation of flows changed when the Department of Social Protection introduced a new IT system in October 2009 and so there is no data available on Live Register flows between March 2008 and October 2009.

While information on the latest number of casual and part-time workers on the Live Register was previously included on the monthly release since March 2002, a table is now contained in the release providing a time-series with additional monthly change information.

Since October 2009 the Department of Social Protection has provided a classification of the Live Register by occupational groupings. This table is now included in the monthly release and refers to the last held occupation that Live Register claimants report.

Live Register tables classified by region and nationality groupings have been added to the new release, as has a monthly table of duration of continuous registration. **More detailed information on geographic breakdowns of the Live Register and duration of continuous registration along with all Live Register published data can be found on the CSO Main Data Dissemination Service, Database Direct on the CSO website –**
