## Download Skype for Business for your desktop

Download free basic client

**Download licensed client**

Get the Skype for Business mobile app<sup>1</sup>

15:19 26/03/2020 ENG

Use your CSO email Address to download together with your “Network” password

(The password you log in with first thing in the morning)

This should get you to the download section and you select whichever Skype for Business download is suitable to your device

Your contact list and groups that you have set up in work will sync to your account and you can then use Skype for Business as usual. The video and microphone aspect will depend on what you have available on your own device.
